

## News release from Vestas Northern and Central Europe

Hamburg, 28 December

### Vestas receives 88 MW order in Poland from recent auction

Vestas has received an 88 MW order from the Polish state utility PGE for the 22 MW Karnice II and 66 MW Starza Rybice projects that were amongst the winning wind projects at the Polish energy auction held in November 2018.

The two projects will feature 10 V110-2.2 MW and 33 V100-2.0 MW respectively as well as a 2-year Active Output Management 4000 (AOM 4000) service contract including the VestasOnline® Business SCADA solution.

*“We are pleased that Poland is back as an onshore wind market with the recent energy neutral auction being dominated by wind projects at very competitive prices. The auction win underlines Vestas’ ability to deliver clean, low-cost wind energy that will ensure many economic benefits to the local community”,* says Nils de Baar, President of Vestas Northern and Central Europe.

Deliveries are expected to begin in third quarter of 2019, while commissioning is planned for fourth quarter of 2019.
