

## News release from Vestas Mediterranean

Madrid, 4 May 2018

### Vestas surpasses 1 GW in order intake from Italian auctions with new order

Vestas has received a 31 MW order for the supply and installation of nine V117-3.45 MW turbines for an undisclosed project in Italy. The project, which was won in Italy's latest auction held in November 2016, takes Vestas' order intake from the four Italian auctions since 2012 above 1 GW, underlining the company's leadership in the country.

*“The project takes Vestas past the 1 GW milestone for orders from Italian auctions, highlighting how our knowledge and expertise in auctions position Vestas as the wind energy leader in the country,”* says Rainer Karan, General Manager of Vestas in Italy, Greece and the MENA region.

Turbine delivery is expected in the last quarter of 2018, with commissioning planned for the second quarter of 2019.

Customer and project are undisclosed per the customer's request.

#### About Vestas

Vestas is the energy industry's global partner on sustainable energy solutions. We design, manufacture, install, and service wind turbines across the globe, and with 92 GW of wind turbines in 79 countries, we have installed more wind power than anyone else. Through our industry-leading smart data capabilities and unparalleled 78 GW of wind turbines under service, we use data to interpret, forecast, and exploit wind resources and deliver best-in-class wind power solutions. Together with our customers, Vestas' more than 23,900 employees are bringing the world sustainable energy solutions to power a bright future.
