About Stayble Therapeutics AB

Stayble is a clinical stage pharmaceutical company developing the injection treatment STA363 for disc-related low back pain. The treatment is aimed at patients whose back pain persists after physiotherapy and painkillers. The injection is given once and the effect is expected to remain throughout the entirety of the patient’s life and to require minimal rehabilitation. The Company’s focus is set upon the continued clinical development of the upcoming clinical phase 2b study. Stayble’s vision is to develop STA363 as a new standard treatment for patients suffering from chronic disc-related low back pain.
