

Medius earns 3x Microsoft Gold Partner status

Medius, a global supplier of cloud-based source-to-pay solutions, has, for the eighth consecutive year, earned the status as Microsoft Gold Partner in three categories – Cloud Platform, Application Development and Data Analytics.

Medius' best-of-breed accounts payable automation solution, [MediusFlow](#), is built and hosted on the Microsoft Azure cloud platform, allowing for a high level of innovation, scalability and security. In addition, MediusFlow offers seamless connectivity to Microsoft Dynamics Enterprise Resource Planning (ERP) solutions.

"Our close and longstanding relationship with Microsoft is core to our business in many ways," said Per Åkerberg, CEO at Medius. "The constantly evolving Azure platform allows us to deliver true product innovation to our Software-as-a-Service while maintaining our high-quality standards for scalability and security."

Recent innovations in the MediusFlow solution leverage a combination of the cloud and artificial intelligence (AI) technologies to further automate and accelerate accounts payable processes. For example, MediusFlow can suggest coding of an invoice leveraging cloud community data and intelligent technologies, removing the need for manual user intervention at this step of the process.

"Medius is an important Microsoft partner leveraging our Azure technology and delivering great value to Microsoft Dynamics users across the globe", said Marcus Gullberg, Director of Business Development at Microsoft. "Together, Medius and Microsoft have experienced great success selling our joint offering to business customers as we support them on their digital transformation journey".

The preferred choice for companies running Microsoft Dynamics ERPs

MediusFlow has a longstanding, strong track record of automating accounts payable processes for companies running Microsoft Dynamics ERPs. Thanks to pre-packaged connectors and a proven methodology for rapid deployments, MediusFlow provides Dynamics users with immediate automation effects, a seamless user experience as well as full visibility and control of their accounts payable process and data.

MediusFlow is available in Microsoft's business application marketplace AppSource for Dynamics 365 for Finance and Operations as well as Dynamics 365 Business Central. Companies automating their invoice process with MediusFlow connected to a Microsoft Dynamics ERP include [Marc Jacobs](#), [Tikkurila](#), [LUSH Fresh Handmade Cosmetics](#), [SoftwareONE](#) and [Briggs Equipment](#), amongst others.
