About Midsummer

Midsummer is a leading developer and supplier of advanced solar energy technology solutions for the production and installation of thin film solar panels. Its business offering includes equipment for cost-effective manufacturing of thin film solar cells as well as building-integrated photovoltaic (BIPV) solutions.

Midsummer develops and markets solar panels directly to end customers from its own production and via contract manufacturers. The energy producing metal roof [Midsummer solar roofs](#) is supplied with integrated solar panels for ease of installation. Midsummer’s lightweight, thin and flexible solar panels makes for an aesthetically pleasing solar roof that is also suitable to walk on.

Midsummer’s proprietary technology is based on a rapid process for the production of flexible thin film solar cells using sputtering of all layers of the solar cell. The Company’s share (MIDS) is traded on Nasdaq First North Stockholm with G & W Fondkommission as Certified Adviser, phone: +46 (0)8-503 000 50, email: ca@gwkapital.se For more information, please visit: www.midsummer.se
