

Catena welcomes new Regional Manager in Finland

Henrik Eskolin, with extensive experience in real estate investments, transactions and asset management, has been appointed Regional Manager for Catena's new market, Finland.

Henrik has broad expertise in deal execution, market analysis and asset management and many years of experience in real estate transactions and fund management. Since 2018, he has held senior roles at Fokus Nordic (previously Aberdeen Standard Investments and DEAS Asset Management), where he has worked in investments and the development of real estate portfolios. Prior to that, Henrik also worked at Pareto Securities and CBRE Finland, among others.

"Local presence and close relationships with our customers are important success factors for Catena. We are therefore very pleased that Henrik will be Regional Manager in Finland. With his extensive experience and strong local market knowledge, we are further strengthening our ability to grow in the Finnish market – a market where we see significant potential going forward," says Catena's Head of property, Johan Franzén.

Catena entered the Finnish market in February 2026 through a major acquisition from Urban Partners, in which seven of the acquired properties were located in Finland. Following two additional acquisitions, Catena's Finland region now comprises nine properties, corresponding to approximately 217,000 sqm of logistics space.

Henrik Eskolin will take up his new position in August 2026.
