

Press Release, Stockholm 2020-09-30

## **Scandinavian Biogas establishes green framework with the independent rating "Dark Green"**

Scandinavian Biogas Fuels International AB (publ) ("Scandinavian Biogas" or "the Company"), as part of the Company's Financial Sustainability work, has established a green framework for future debt financing. The green framework has been created in line with the Green Loan Principles and Green Bond Principles developed by ICMA (International Capital Market Association) and has been evaluated by an independent third party, CICERO Shades of Green.

The framework has received a "Dark Green" rating from CICERO Shades of Green, including related governing documents and reporting standards.

"Scandinavian Biogas wants to contribute to a greener energy transition in society. The "Dark Green" assessment is one of several proofs on it. We have a clear sustainability profile and sustainability is an integral part and self-evident in the company's operations. We work systematically all the time to find new and innovative sustainability solutions that take into account the company's climate footprint. Through the establishment, we now want to show how we intend to use cash from future borrowing for green purposes" - Matti Vikkula, CEO, Scandinavian Biogas

ABG Sundal Collier has been an advisor to Scandinavian Biogas in the development of the green framework.
