Scandinavian Biogas refinanced loan of SEK 200 million within the framework of green financing

Scandinavian Biogas Fuels International AB (publ) ("Scandinavian Biogas" or "the Company") has today repaid the Company's outstanding direct loan of SEK 200 million. The repayment has been made with a credit facility within the green financing framework, which amounts to a total of SEK 200 million. The credit facility has an maturity of 18 months. The terms of the facility are favorable and some of the largest shareholders have contributed to the financing. The company's financing costs are significantly reduced with the new loan.

We are very pleased with the new financing solution that will significantly reduce the Company's financing costs and of course the "Dark Green" assessment in the green framework has contributed very positively. At the same time, it is also concrete proof that Scandinavian Biogas' business has developed in a good and successful way." - Matti Vikkula, CEO, Scandinavian Biogas
