About Shape Robotics A/S

Shape Robotics A/S ("Shape Robotics" or "the Company") is a Danish robotics company with a strong position in the global educational technology ("EdTech") market. The Company has developed Fable, a unique modular robot that makes it easy and fun for students to build and program their own robots. Since the launch of Fable in 2017 more than 5000 robots have been sold and shipped to schools around the world.

Shape Robotics helps educational institutions provide excellent teaching that will prepare students for a fast-changing future where digital technologies, artificial intelligence, and automation are transforming life and work. Fable is a modular robot that students can build in seconds. The robot system is robust, can withstand everyday usage in classrooms and can be used to solve demanding tasks. Students code Fable depending on their experience - from simple block programming to coding in the advanced Python language. Comprehensive teaching materials has been developed in collaboration with professional educators. Therefore, Shape Robotics provides complete teaching solutions for educational institutions from the 3rd grade to high-school and vocational schools.
