Lindab Group divests operations in Romania

Lindab Group has today signed an agreement to divest its operations in Romania. The divestment completes the previously announced restructuring within business area Profile Systems in Eastern Europe.

"This divestment marks the completion of Lindab Group's exit from Profile Systems' operations in Eastern Europe", says Ola Ringdahl, President and CEO of Lindab Group. "Profile Systems can now fully focus on the Scandinavian markets, while Ventilation Systems in Eastern Europe will concentrate on markets with strong potential for profitable growth."

Lindab Group's operations in Romania have around 100 employees and annual sales of approximately 210 MSEK. It includes production, warehousing and a sales organisation. The company's operations are mainly related to Profile Systems, but the ventilation business is also included in the divestment as it represents a minor part.

The Romanian operations are acquired by Marián Kapusta Sr. and Marián Kapusta Jr. They have previously been part of the acquisitions of Lindab Group's subsidiary in Slovakia and the profile operations in Hungary, which both were announced earlier this year. Across all three markets, they will operate under the Rova brand. Their company will act as both a distributor and a licensed manufacturer for many of Lindab's profile products. "As new owners, we plan to continue with the same focus on the business as before, and we look forward to representing Lindab in the Romanian market," says Marián Kapusta Sr.

The divestment is expected to be finalised during the first quarter of 2026. The transaction will contribute positively to cash flow upon completion.

Lindab in brief

Lindab is a leading ventilation company in Europe. Lindab develops, manufactures, markets and distributes products and systems for energy-efficient ventilation and a healthy indoor climate. The products are characterised by high quality, ease of installation and environmental thinking.

The Group had sales of SEK 13,323 m in 2024 and is established in 20 countries with approximately 5,000 employees. Western Europe accounted for 44 percent of sales in 2024, the Nordic region for 42 percent, Central Europe for 10 percent and Other markets for 4 percent.

The share is listed on the Nasdaq Stockholm, Large Cap, under the ticker symbol LIAB.
