

Cloudberry Clean Energy ASA | Serious blade incident at Odal Vind

Cloudberry Clean Energy ASA (“Cloudberry”) received a report last night, Wednesday April 10, that a blade from a turbine at Odal Vind, located in the Engerfjellet park, has broken off. There have been no personal injuries or other material damages. A crisis team has been established, and technical personnel from Siemens Gamesa are currently on site. The wind farm has been temporarily shut down and the site has been closed off.

Cloudberry understand that this incident may be unsettling for the local community and is grateful that there were no personal injuries or other material damages. As previously communicated, there is an ongoing process by Siemens Gamesa to repair and exchange previously identified blade defects. In relation to the broken blade, Odal Vind and Siemens Gamesa will conduct a thorough investigation into the incident to understand what has occurred and to prevent similar incidents in the future.

The incident is covered by Odal Vind’s financial warranties, and therefore it is not expected to have any significant financial implications. Cloudberry will provide more detailed information as soon as it becomes available.
