GF Waga introduces a 15-year quality guarantee for MULTI/JOINT® 3000 Plus

The unique quality guarantee by Georg Fischer Waga N.V., an expert for durable, safe, and maintenance-free jointing technology, covers both material and workmanship for all MULTI/JOINT® 3000 Plus products.

GF Piping Systems is committed to providing durable and reliable products with a long service life. As part of the 15-year quality guarantee, the company will repair the products at no charge should an inspection indicate that they did not perform their intended purpose. The guarantee is subject to terms and conditions.

Rudy Woudenberg, Product Manager at GF Waga, comments: "The MULTI/JOINT® 3000 Plus system has been synonymous with safety, efficiency, and longevity for over 30 years. In the rare cases that customers faced issues, we have always worked together to find solutions. To underline our commitment, GF Waga now officially gives a 15-year quality guarantee for the entire MULTI/JOINT® 3000 Plus product family. This not only adds a layer of assurance but also aligns with our dedication to quality and gives end users peace of mind."

MULTI/JOINT® 3000 Plus is a quick, safe, and simple repair solution that connects pipes from distribution and transport grids with a restraint pull-out resistance system. It is suitable for a wide variety of materials and outer diameters and features a Resicoat® epoxy powder coating for corrosion-resistance. Thanks to easily accessible bolts, it can be installed without special tools and does not require time-consuming welding or flanging. The product family offers the largest range of restraint fittings with dimensions covering DN50 to DN1025.

GF Piping Systems

GF Piping Systems creates connections for life as the superior water and flow solutions provider for industries and infrastructure, enabling the safe and sustainable transport of fluids.

The division focuses on industry-leading leak-free piping solutions and engineering services for numerous demanding end-market segments. Its global sales, engineering, and manufacturing footprint reflects its strong focus on customer-centricity and innovation, and its award-winning portfolio includes fittings, valves, pipes, vaults, chambers, automation, fabrication, and jointing technologies.

GF Piping Systems has its own sales companies in 33 countries and fabrication hubs in 15 countries, which means it is always by its customers' side. Production sites in 40 locations in the Americas, Europe, the Middle East, and Asia ensure sufficient availability and quick, reliable delivery. In 2023, GF Piping Systems generated sales of CHF 2'100 million and employed 8'798 people. GF Piping Systems is a division of Georg Fischer AG (GF), founded in 1802 and headquartered in Schaffhausen (Switzerland).
