

Safello and Talos enter into referral agreement for Atoma Studio – Safello's AI first compliance platform

Stockholm, 23 July 2025 | Safello, the leading cryptocurrency exchange in the Nordics, today announced a collaboration with Talos, a global technology infrastructure provider for digital asset trading, regarding Safello's AI-first compliance platform for digital finance, Atoma Studio.

Atoma's modular, SaaS-based platform is purpose-built for Crypto Asset Service Providers (CASPs) striving to meet the regulatory requirements of MiCA. Atoma Studio's first product, Atoma Trade Surveillance, is a B2B SaaS platform designed for Crypto Asset Service Providers to comply with article 92 in MiCA. Unlike complex solutions built for traditional markets, it delivers essential market abuse monitoring – spoofing detection, wash trading alerts, and insider trading signals – at a lower cost.

“The collaboration with Talos enables a global sales reach upon launch of Atoma Studio, to the preferred target market. We look forward to collaborating with Talos and the opportunity to work with their customers for Atoma Trade Surveillance, as we continue to expand the product suite with additional compliance products,” says Emelie Moritz, CEO of Safello.

“Compliance is no longer a box-ticking exercise, it's a foundational requirement for institutional-grade digital asset trading. We're excited to collaborate with Safello to make this technology more accessible to our clients across Europe and beyond,” says Frank van Zegveld, Head of Sales EMEA at Talos.

Talos is a technology infrastructure provider for digital asset trading trusted by leading global institutions across the world. Talos serves crypto asset firms, hedge funds, banks, asset managers and brokers in 31 countries.
