Authorising the Board of Directors to decide on acquisition of the company's own shares

The general meeting authorised the Board of Directors to decide on acquisition of the company's own shares. Pursuant to the authorisation, the Board of Directors is authorised to decide on the acquisition of a maximum of 175,000 shares in the company corresponding to approximately 1.0 percent of all the company shares. The shares can be acquired in one or several instalments. Pursuant to the authorisation, shares can be acquired otherwise than in proportion to the shareholders' ownership in the company (directed acquisition).

Shares may be acquired at the prevailing market price formed in public trading on the date of the acquisition or otherwise at a price formed at the market. Pursuant to the authorisation, the Board of Directors may decide to acquire the shares only with the company's unrestricted equity.

Shares will be acquired to be used in developing the company's capital structure, in financing potential mergers and acquisitions, investments, and/or other business-related arrangements, in implementing the company's incentive schemes, or to be held, conveyed otherwise, or cancelled by the company. The Board of Directors was authorised to decide on all other terms and conditions related to the acquisition of own shares. The authorisation will be valid until 30 June 2027 and revoked the earlier corresponding authorisation.

Authorising the Board of Directors to decide on the issuance of shares and special rights entitling to shares

The general meeting authorised the Board of Directors to decide on issuing new shares and/or conveying treasury shares and/or granting option and other special rights referred to in Chapter 10, Section 1 of the Limited Liability Companies Act. A total maximum of 1,600,000 shares may be issued and/or treasury shares conveyed in one or several instalments (including shares that can be issued based on the special rights) corresponding to approximately 9 per cent of all the shares in the company at the time of the proposal.

New shares may be issued, and treasury shares conveyed to the company's shareholders in proportion to their existing shareholdings in the company, or in deviation from the shareholders' pre-emptive right, through a directed share issue if there is a weighty financial reason for it from the company's point of view. New shares may be issued also without payment to the company itself.

New shares may be issued, and treasury shares conveyed either against payment (share issue against payment) or without payment (share issue without payment). A directed share issue may be a share issue without payment only if there is an especially weighty financial reason for it from the company's point of view and taking into account the interests of all its shareholders. The authorisation may then be used for mergers and acquisitions or to finance other business-related investments, to maintain and increase the group's solvency, to implement incentive schemes, to expand the ownership base or to develop the capital structure.

The subscription price of the new shares and the consideration payable for the treasury shares shall be recorded in the invested unrestricted equity fund. The Board of Directors was authorised to decide on all other terms and conditions related to the issuance of new shares, conveyance of treasury shares or issuance of special rights entitling to shares. The authorisations will be valid until 30 June 2026 and revoked all earlier corresponding authorisations.
