

## Polymer Factory Granted SpheriCal Patent in Multiple European Countries

Stockholm, Sweden – Polymer Factory has been granted the SpheriCal patent in several European countries. The patent, valid for 20 years, is titled “*Functionalized calibrants for spectrometry and chromatography*” and was filed on May 29, 2018.

The granted patent covers the following countries: United Kingdom, Austria, Belgium, Bulgaria, Germany, Denmark, Estonia, Finland, France, Italy, Latvia, Luxembourg, Lithuania, Malta, the Netherlands, Portugal, Romania, Sweden, and Slovenia.

“Intellectual property rights including patents carry significant commercial value, and it is therefore crucial to have a strong patent strategy that protects the company’s technology. As we now begin entering larger agreements with major international companies with strong resources, this becomes particularly important”, said Mats Wallnér, CEO of Polymer Factory.

Polymer Factory (publ) is a leading global provider and producer of dendritic materials, with customers ranging from BigPharma, MedTech and BioTech companies, to research-intensive institutes and academic research groups. The Company’s dendritic materials act as smart delivery systems that enhance the effects of the substances they carry, e.g. a vaccine or an anticancer drug. They have also shown great promise in diagnostics, tissue engineering and in the development of vaccines. In addition, Polymer Factory has used the Company’s vast knowledge and expertise to develop a patented calibration technology, named SpheriCal®, designed for Mass Spectrometry instruments. The Company’s dendritic nanotechnologies have the potential to accelerate innovation in technologically demanding sectors, such as MedTech and BioTech.
