

## Polymer Factory Becomes Sponsor of IDS13 in Stockholm

Polymer Factory will act as a sponsor of the 13th International Dendrimer Symposium (IDS13), which will be organized by KTH Royal Institute of Technology and held in Stockholm from September 30 to October 2, 2026.

IDS13 is expected to attract several hundred leading researchers from around the world. The scientific program is designed to highlight the breadth and diversity of dendritic polymers and will cover seven thematic areas, including synthesis, structure, therapeutics, antimicrobial systems, photo-responsive materials, commercialization, and emerging research frontiers. The program aims to provide comprehensive coverage across the entire dendritic polymer spectrum.

By sponsoring IDS13, Polymer Factory reinforces its commitment to supporting cutting-edge research and strengthening collaboration with the global scientific community in the field of advanced polymer materials.

Polymer Factory (publ) is a leading global provider and producer of dendritic materials, with customers ranging from BigPharma, MedTech and BioTech companies, to research-intensive institutes and academic research groups. The Company's dendritic materials act as smart delivery systems that enhance the effects of the substances they carry, e.g. a vaccine or an anticancer drug. They have also shown great promise in diagnostics, tissue engineering and in the development of vaccines. In addition, Polymer Factory has used the Company's vast knowledge and expertise to develop a patented calibration technology, named SpheriCal®, designed for Mass Spectrometry instruments. The Company's dendritic nanotechnologies have the potential to accelerate innovation in technologically demanding sectors, such as MedTech and BioTech.
