

Polymer Factory to Exhibit at ANALYTICA 2026 in Munich

Polymer Factory will participate as an exhibitor with its own booth at ANALYTICA 2026, held in Munich from March 24 to March 27, 2026.

ANALYTICA is the world's leading trade fair for laboratory technology, analysis and biotechnology. The event brings together the most important international companies in the sector, many of which are existing partners and customers of Polymer Factory.

By exhibiting at ANALYTICA 2026, Polymer Factory aims to strengthen relationships with current partners, connect with new customers, and showcase its advanced polymer solutions to a global audience of industry professionals and researchers.

Polymer Factory (publ) is a leading global provider and producer of dendritic materials, with customers ranging from BigPharma, MedTech and BioTech companies, to research-intensive institutes and academic research groups. The Company's dendritic materials act as smart delivery systems that enhance the effects of the substances they carry, e.g. a vaccine or an anticancer drug. They have also shown great promise in diagnostics, tissue engineering and in the development of vaccines. In addition, Polymer Factory has used the Company's vast knowledge and expertise to develop a patented calibration technology, named SpheriCal®, designed for Mass Spectrometry instruments. The Company's dendritic nanotechnologies have the potential to accelerate innovation in technologically demanding sectors, such as MedTech and BioTech. Learn more at www.polymerfactory.com.
