

## Polymer Factory to Participate at ASMS 2026 in San Diego

Polymer Factory will participate at the 74th Annual Conference on Mass Spectrometry and Allied Topics (ASMS 2026), taking place in San Diego, California from May 31 to June 4, 2026.

ASMS is regarded as the premier forum for exploring the latest breakthroughs in mass spectrometry and related technologies. The conference attracts approximately 6,500 to 7,000 delegates from academia, government, and industry, offering extensive opportunities for collaboration and engagement with both existing and prospective customers.

Polymer Factory's participation reflects the company's continued commitment to strengthening its presence within the global mass spectrometry community and showcasing its innovative SpheriCal® calibration technologies and solutions.

Polymer Factory (publ) is a leading global provider and producer of dendritic materials, with customers ranging from BigPharma, MedTech and BioTech companies, to research-intensive institutes and academic research groups. The Company's dendritic materials act as smart delivery systems that enhance the effects of the substances they carry, e.g. a vaccine or an anticancer drug. They have also shown great promise in diagnostics, tissue engineering and in the development of vaccines. In addition, Polymer Factory has used the Company's vast knowledge and expertise to develop a patented calibration technology, named SpheriCal®, designed for Mass Spectrometry instruments. The Company's dendritic nanotechnologies have the potential to accelerate innovation in technologically demanding sectors, such as MedTech and BioTech.
