AddSecure awarded Excellent Employer for the fifth time

According to Nyckeltalsinstitutet's Attractive Employer Index[®], AddSecure is among the top 10 percent of companies in Sweden in terms of working conditions.

[AddSecure](#) has been named "Excellent Employer" for the fifth time, an award that reflects the company's strong focus on work environment and employee engagement. According to Nyckeltalsinstitutet's Attractive Employer Index[®], AddSecure is among the top 10 percent of companies in Sweden in terms of working conditions.

AddSecure's particular strengths in the survey include:

- **High retention of new employees:** Contributes to a stable and sustainable workforce while promoting faster integration and increased productivity.
- **Low number of employees per manager:** Creates conditions for clear communication, stronger relationships, and individualised support, which benefits team performance and employee development.
- **High level of competence development:** Enhances employee skills, boosts motivation, and drives innovation, leading to improved performance and long-term competitiveness.

"Receiving this award for the fifth time is a recognition of our employees' efforts and our corporate culture. It is our employees' engagement that makes us the company we are today. We are proud to be a workplace where one can grow and develop. Of course, there is always room for improvement – for example, the fact that women and men often have different roles and are in different parts of the organisation. We will continue to work to be an attractive workplace for everyone," said Liljana Vall, Chief People & Culture Officer at AddSecure.

Nyckeltalsinstitutet's survey is based on collected statistics from 2024 and comes from a database with information on the actual working conditions of over 800,000 employees from more than 400 companies and organisations.

About Nyckeltalsinstitutet

Nyckeltalsinstitutet AB is one of the leading actors in people analytics in Sweden. Since 1996, Nyckeltalsinstitutet has used scientific measurement methods to collect, map, and report HR economic data to provide important decision-making bases that create conditions for a working life with engaged employees and successful employers. Nyckeltalsinstitutet today has the largest database with current working conditions from various industries in Swedish working life. In a world of opinions, Nyckeltalsinstitutet delivers facts that create successful employers. More information about Nyckeltalsinstitutet's operations can be found at www.nyckeltal.se.

About AddSecure

[AddSecure](#) is a leading European provider of secure IoT connectivity and end-to-end solutions. We help customers optimize their operations, drive business value, and secure vital functions.

By combining connected, data-driven, and sensor-based solutions with best-in-class expertise, we meet our customers' needs regardless of industry. We provide both managed services and connect any device in need of secure communications and data transfer. Imagination is the only limit.

Our secure IoT solutions are used within the areas of buildings, alarms, transportation and logistics, personal safety and security, health care, construction, municipalities, schools, rescue services, power grids, and more.

AddSecure's headquarters is in Stockholm, Sweden. Our main market is Europe, yet we serve customers worldwide. With over 1,100 employees, we help make the world safer, smarter, and more sustainable.

AddSecure is majority-owned by Funds, managed by [Castik Capital](#), a European private equity fund with a long-term approach to value creation.
