

## Founder acquires shares in JS Security

**JS Security Technologies Group AB ("JS Security" or "the Company") announces today that one of the Company's founders, Christopher Ramstedt, has acquired shares in the Company.**

Christopher Ramstedt has acquired 4,200 shares in the Company through his wholly owned company CMR Equity AB. Following the acquisition, Christopher Ramstedt's total shareholding, privately and through companies, amounts to 504,210 shares, corresponding to 7.96% of capital and voting rights.

This publication is prompted by the fact that JS Security has decided to publish acquisitions or sales of shares in the Company on its own initiative, which consist of board members or senior executives in the Company. This is in accordance with the Company's strategy for clear communication with investors, shareholders and analysts.
