

MilDef receives 29.7 MNOK order for Norwegian digitalization project

MilDef Group AB ("MilDef") has received a 29,7 MNOK order for highly customized tactical IT through its Norwegian subsidiary. The products are part of a Norwegian defense vehicle program with first deliveries in 2021.

The solution will provide armored vehicles with computers, displays and network infrastructure for Command and Control. The ACSV (Armored Combat Support Vehicle) is the main vehicle in this program. MilDef delivered prototypes of the complete solution in 2020 that has undergone rigorous testing, proving its performance, usability, and ruggedness.

MilDef is a contractor to the Norwegian FMA (*No. Forsvarsmateriell*). This order confirms the solid relationship between the two parties, and highlights MilDef Group's strong position as a preferred supplier of tactical IT.

"We are proud to be part of the Norwegian digitalization and modernization", says Björn Karlsson, CEO MilDef Group. "For this strategic project, MilDef delivers its full range of capabilities – hardware, software, and services."
