

MilDef wins business in Sweden worth 22.8 MSEK

MilDef Group has won a deal through its subsidiary MilDef International with Exensor Technology AB, a Swedish company that produces advanced sensor systems. The deal consists of tactical IT and includes customized handheld units.

MilDef's international sales company has a long-standing collaboration with Exensor, who delivers advanced sensor systems for ground-based installations. Sensors and communication systems from Exensor in combination with tactical IT from MilDef create capability within surveillance and detection of both humans and vehicles. The order value is 22.8 MSEK and deliveries are planned for 2022 and 2023.

"We are happy with the collaboration with MilDef. Our sensor systems are highly customizable and that requires a supplier of tactical IT who is as flexible as we are.", says Marcus Rosenqvist, VP Sales & Marketing at Exensor.

"This is an excellent example of industrial collaboration between two Swedish companies that together deliver a technological advantage to the customer", says Björn Karlsson, CEO MilDef Group AB. *"We hope to continue expanding our collaboration with Exensor, who operate in a highly relevant domain."*
