

MilDef wins order in Estonia worth 10.7 MSEK

MilDef Group has won an order in Estonia for tactical IT through its subsidiary MilDef International. The end customer is EDF, the Estonian Defence Forces. Deliveries of the 10.7 MSEK order are planned for 2022 and 2023.

MilDef's international sales company has worked closely with local businesses to provide the proposal to an Estonian vehicle project. The solution contains both highly rugged tablets and products in the MilDef 19" / 2 form factor.

"This is MilDef's first larger order from the Estonian market and from the Baltic region. We are proud to deliver tactical IT to one more of our selected NATO markets.", says Björn Karlsson, CEO MilDef Group. *"In addition, this is a good example of how MilDef products deliver digitalization and modernization of vehicle platforms."*
