

Press Release

Helsingborg, Sweden, January 21, 2022

MilDef wins orders from BAE Systems Hägglunds

BAE Systems Hägglunds, a world-leading developer and supplier of tracked vehicles for defence and emergency services, has given MilDef the confidence to deliver communications equipment with a total order value of SEK 18 million. Deliveries will take place starting in 2022.

MilDef's delivery of communication equipment to BAE Systems Hägglunds concerns technology for enhanced cyber defence and upgrades of combat vehicles 90. Based on the standardized form factor that MilDef offers its customers, upgrades and replacement products can be effectively implemented.

"The collaboration with BAE Systems Hägglunds is an example of industrial collaboration between two Swedish companies that together deliver technological advantage to the end customer," says Björn Karlsson, CEO MilDef Group AB. "We are proud to deliver cutting-edge technology to a world leader in military and civilian vehicle systems", he concludes.

BAE Systems Hägglunds focuses on the provision and upgrade of vehicle systems for military and civil applications. These include world-leading tracked vehicles for defence and emergency services.

The information was submitted for publication, through the agency of the contact persons set out below, at 09:00 CET on January 21, 2022.
