Helsingborg, Sweden, June 13, 2022

# MilDef awarded contract in USA worth more than 50 MSEK

**The order, awarded through a global US defense company, is the biggest deal to date in USA for tactical IT. The order value is more than 50 MSEK and deliveries will take place during the second half of 2022.**

MilDef will deliver 400 customized laptops for use within the US Army, through one of the largest defense companies. The contract is a result of the last year's strategic efforts that gives MilDef entry to multiple large Programs of Record within the US Army.

- *We have increased our efforts to gain entry to long-term DoD Programs and contracts that enable bigger and more strategic deals than before. This recent order is a follow-on to an initial pilot order placed in 2021, effectively validating MilDef's value to these US Army programs. Our US team consistently targets both industry and government, which is creating positive effects, says Björn Karlsson, CEO MilDef Group.*
