

## Press Release

Helsingborg, 6 September 2023

# MilDef awarded a series of contracts on the US market worth 3.5 MUSD

MilDef has, in the third quarter, closed a series of contracts on the US defense market regarding cutting edge rugged IT for digitalization of the U.S. Army, Air Force Special Operations Command (AFSOC), United States Marine Corps (USMC), and U.S. Navy.

The United States defense market is the largest defense market in the world, the defense budget equals almost 50 percent of all countries defense budgets combined.

*“These orders validate MilDef’s continued commitment to our U.S. Department of Defense (DoD) customers and the trust our customers place in MilDef. Deliverables in these orders will enable mission critical C4ISR capabilities within ground vehicles, aviation platforms, and shipboard installations across the U.S. Army, Air Force Special Operations Command (AFSOC), United States Marine Corps (USMC), and U.S. Navy”, says Daniel Ljunggren, CEO MilDef.*

MilDef now accelerates US ambitions by consolidating MilDef Inc and the acquired Handheld operations, under one strong and focused unit. By doing so MilDef’s total US footprint is doubled, and the product offering is substantially widened for increased reach into military defense, as well as critical infrastructure domains.

The information was submitted for publication, through the agency of the contact persons set out below, at 09:00 CET on September 6, 2023.
