

Odinwell Receives Letter of Intent from International Advanced Wound Care Company

Odinwell AB today announces that it has received a Letter of Intent (LOI) from a global wound care company.

The company has expressed interest in Odinwell's technology and wishes to evaluate the performance of the product and how it could be integrated into its product portfolio.

The Letter of Intent and access to the instrument is exploratory, do not constitute any binding commitments or exclusivity regarding future commercial agreements or purchase orders. During the evaluation period, the parties will continue discussions regarding potential areas of future collaboration.

"We are very pleased to have received a Letter of Intent from a globally leading player in advanced wound care. The dialogue between our companies has been constructive and characterized by significant interest in the opportunities our technology can offer. The fact that a company of this size and market position has chosen to evaluate our solution and demonstrated such clear interest is important for Odinwell," says Marcus Andersson, CEO of Odinwell AB.
