Sandvik wins large underground mining equipment order in Colombia

Sandvik has received a major order for underground mining equipment from the Canadian mining company Aris Mining, to be used at the Marmato gold mine in Colombia. The order is valued at around SEK 250 million and was booked in the first quarter of 2026.

The order consists of underground trucks, loaders and drill rigs, with deliveries expected to begin in the second quarter of 2026 and continue through the second quarter of 2027. In addition to the equipment order, Sandvik will also supply maintenance and repair services for the operation.

“This order reflects the strong partnership we have built with Aris Mining and their confidence in Sandvik’s underground mining solutions. We are very pleased to support the expansion of the Marmato mine, and continue to help improve productivity, safety and operational efficiency in their operation,” says Mats Eriksson, President of business area Mining at Sandvik.
