# Sandvik wins major order for Khoemacau Copper Mine in Botswana

Sandvik has received a major underground mining equipment fleet order from the China-based mining contractor JCHX Mining Management Co., Ltd., to be used at the Khoemacau Copper Mine in Botswana. The order is valued at approximately SEK 650 million and was booked in the second quarter of 2026.

The order includes loaders, trucks and drills, and access to digital monitoring solutions, including Remote Monitoring Service. AutoMine® is included for the loaders and part of the drills. Deliveries are expected to begin in the third quarter of 2026 with most of the deliveries expected in 2026-2028.

“We are very pleased to deepen our partnership with JCHX at the Khoemacau Copper Mine and look forward to support the expansion of the underground mining operations with our leading solutions, combining advanced equipment, services and digital solutions,” says Mats Eriksson, President of business area Mining at Sandvik.

Khoemacau Copper Mine is a major underground mine located in Botswana's Kalahari Copper Belt, with significant expansion underway.
