## **Scania to deliver 360 city buses to Malaysia**

**Scania will deliver 360 city buses to the state-owned company Syarikat Prasarana Negara Berhad (Prasarana). The buses will operate in the city of Kuantan and in the capital Kuala Lumpur.**

“Scania buses and coaches are renowned for their fuel economy, reliability, safety and comfort. Each component is engineered to heighten the performance of the vehicle. With our new engine platform, Scania buses are now capable of higher torques at lower revs and even lower fuel consumption. Each model can also be customised in terms of passenger capacity, seating plans, comfort levels and other key criteria as required,” says James Armstrong, Managing Director of Scania Malaysia.

The Scania city bus model – Scania K 250 UB4x2 – is configured with a low-floor chassis and safety features such as handicap access capability for all passengers. It is equipped with a ramp for full wheelchair access and two docking slots with seatbelts for safe wheelchair anchorage. The body is made of aluminium to reduce weight and fuel consumption, as well as to extend vehicle life.

For further information, please contact Hans-Åke Danielsson, Press Manager, tel. +46 8 553 856 62.

*Scania is one of the world's leading manufacturers of trucks and buses for heavy transport applications, and of industrial and marine engines. Scania is one of the world's leading manufacturers of trucks and buses for heavy transport applications, and of industrial and marine engines. Service-related products account for a growing proportion of the company's operations, assuring Scania customers of cost-effective transport solutions and maximum uptime. Scania also offers financial services. Employing some 38,600 people, the company operates in about 100 countries. Research and development activities are concentrated in Sweden, while production takes place in Europe and South America, with facilities for global interchange of both components and complete vehicles. In 2012, net sales totalled SEK 79.6 billion and net income amounted to SEK 6.6 billion. Scania press releases are available on [www.scania.com](http://www.scania.com)*
