

## Revised 2025 financial expectations

*This announcement contains inside information concerning 2025 expectations*

The Board of Directors for Wirtek A/S has today reviewed an updated financial prognosis for fiscal year 2025. Based on this review, the Board of Directors revises the 2025 financial expectations as follows:

- Revenue for 2025 is expected in the range of DKK 64.0m – 69.0m, down from the previously announced DKK 70.0m – 75m.
- EBITDA for 2025 is maintained in the range of DKK 1.0m – 5.0m.

The updated revenue guidance reflects a slower-than-anticipated recovery from the significant revenue reduction at the beginning of 2025 following the completion of a major client engagement with a Danish client (see Wirtek's [Q1 2025 interim report](#)). While new orders and increased activity with existing clients are helping close this gap, the pace of recovery will not be sufficient to meet the original revenue expectations.

Importantly, EBITDA expectations remain unchanged, supported by decisive cost optimisation measures implemented in Q2 and continued operational efficiencies. This ensures we remain on track to deliver profitability for 2025 despite the lower revenue outlook.

Wirtek publishes its Q2 2025 interim report on 13 August 2025.
