BPC receives an order from a leading global sugar producer for biogas production

BPC Instruments AB (“BPC” or the “Company”) has received a purchase order from a leading multinational manufacturer of sugar, alcohol, and starch, headquartered in Belgium. The order encompasses the delivery of two complete AMPTS® III systems, with a total order value exceeding 54,000 euros. The revenue generated from the order is expected to be included in the third quarter of this year.

CEO Dr. Jing Liu comments:

“Throughout this year, BPC has experienced a remarkable period of growth, characterized by strong financial results and a consistently robust sales pipeline, including a substantial number of purchase orders within the biogas sector. I’m therefore particularly proud to receive this order from a world-leading industrial player, serving as an exemplary case for other potential industrial clients considering investments and contributions in biogas and biomethane production. Furthermore, it underscores the critical role of feedstock quality control, a testament to the effectiveness of BPC’s flagship product – AMPTS®.”
