BPC secures order of multiple Gas Endeavour[®] from a French research institute

BPC Instruments AB ("BPC" or the "Company"), proudly announces the reception of a substantial purchase order for multiple Gas Endeavour[®] and its Core units, alongside BPC[®] Bioreactors CSTR-10S via its French distributor – Labo-M Solution. The order, exceeding a total value of 73,000 Euros, originates from UniLaSalle - a renowned French research institute that has served as a long-time loyal customer. The instruments will serve to expand the institute's analytical capacity in response to the escalating demand for biomass analysis in the French region. The revenue from this order is expected to be included in the fourth quarter of this year.

CEO Dr. Jing Liu comments:

"Throughout the years, BPC's laboratory instruments have earned increasing recognition and trust from scientists and engineers globally, owing to their high reliability, precision, accuracy, and user-friendliness. Our current business growth is propelled by a dual force: the addition of new clients and the continued patronage of existing customers. The success is the result of the dedicated effort of our talented team members, committed to providing innovative solutions, ensuring top product quality across our portfolio, and prioritizing customer service. This order stands as another testament to the efficacy of BPC's analytical offering in the biogas sector and underscores the trustworthy partnership we share with our clients."
