PROFILGRUPPEN IN BRIEF

- Our vision is to be the preferred supplier of innovative aluminium extrusion solutions in northern Europe
- Started in 1981 in Åseda, Småland
- Listed on the Stockholm Stock Exchange in 1997 and included in the Small Cap list
- A large share of the company's deliveries, around 40 per cent, is exported, mainly to northern Europe
- Extruded aluminium profiles and components are used across a wide range of industries, including interior design, construction, electronics and the automotive industry
- Certified under the ISO/TS 16949, ISO 14001 and ISO 50001 standards
- All in-house production takes place in Åseda and comprises:
 - Three aluminium extrusion lines
 - Anodising facility for surface treatment
 - Processing in the form of machining, bending and punching
 - Fully automated facility for processing, coating and packaging of interior design details
- Partnerships with around ten subcontractors broaden the range of processing options
- A partnership with ProfilGruppen should be uncomplicated and involve personal commitment

WHY ALUMINIUM?

We love aluminium. It is a material that allows us to develop products which are superior from a lifecycle perspective to many of the alternatives. This is partly because we can create more energy-efficient and sustainable solutions, and partly because aluminium is a highly recyclable metal. Aluminium can be melted down and reused again and again without losing any of its valuable and sustainable properties. From a circular economy perspective, it is an excellent option. Moreover, the availability of aluminium in the crust of the Earth is practically unlimited.

Aluminium has many benefits, but some of the most important are:

- Low weight
- High strength and durability
- Good corrosion resistance
- Easy to shape
- High conductivity
- Construction friendly
- Easy to work
- Environmentally friendly and easy to recycle
- Valuable
- Good access

FINANCIAL CALENDAR

Annual General Meeting 2018	17 April 2018, 4 p.m.
Interim report for the first quarter	17 April 2018, 2 p.m.
Interim report for the second quarter	17 July 2018, 2 p.m.
Interim report for the third quarter	23 October 2018, 2 p.m.
Year-end report 2018	February 2019

GLOSSARY

Anodisation	Electrolytic surface treatment process that produces an insulating and decorative surface
Machining	Generic term for a variety of processes that further refine the aluminium extrusion, for example, bending, milling or surface treatment
Extrusion	See power-pressing
Processing	See machining
Power-pressing	Manufacturing extrusions by pressing an aluminium ingot through a die

THIS IS PROFILGRUPPEN

Our vision is to be the preferred supplier of innovative aluminium extrusion solutions in northern Europe. That requires a competent organisation which continually strives for efficiency.

Product development together with the customer

Together with our customers, we customise solutions in which product and production processes are optimised. In addition to the technical properties of the product, we also consider logistical and administrative benefits. In our design work, we strive for sustainable long-term solutions in which the product's environmental impact over the course of its lifecycle is factored in.

Extrusion – our core competency

Our solutions are based on extruded aluminium profiles. Each extrusion is created by pressing heated aluminium ingots through a unique tool matrix. The mechanical properties of the extrusion are ensured through a combination of technology and craftsmanship. The extrusion is packed and forwarded to the next processing step or sent directly to the customer.

Surface treatment – strengthening of properties

To create or reinforce functions or appearance, many of the extruded solutions are surface-treated. This may refer to adding colour, corrosion resistance or durability. The most common surface treatment methods are anodising and powder coating, but other surface treatment methods may also be relevant.

Processing services – increased opportunities

We can further refine extrusions in many different ways. These include simple cutting and stamping to advanced milling or bending in fully automated production cells. In some cases, we also assemble and consumer-package the product. Processing takes place in our own workshops or through our network of subcontractors.

A sustainable end-product

Ultimately, the customer receives a component or extrusion that has been developed to improve the customer's own product, for example, through longer shelf life or lower weight and lower fuel consumption.

A STRONGER ProfilGruppen emerges

ProfilGruppen's best results to date – 2017 was a record year in which we achieved an operating profit over MSEK 100. So, as we take on the new year, ProfilGruppen is a company that is standing strong. We are following our plans and, by focusing on creating value for our customers, we will continue to grow and develop.

An operating profit of MSEK 103.9, earnings per share of SEK 9.86 and an operating margin of 7.5 per cent make 2017 ProfilGruppen's most successful year to date. It is the second record-breaking year in a row. Our strong results also enable us to propose a dividend payment of SEK 4.50 per share to the AGM.

Although we like to say at ProfilGruppen that good things can always be made better, still 2017 was a year that we can really feel proud of. Our performance has also strengthened our drive and ambition to continue to grow and develop as we move forward.

FOCUSING ON CUSTOMER BENEFITS

I am convinced that it is our strong focus on customer benefits – coupled with the wealth of knowledge and experience that exists throughout our organisation, and our will to always become a little better – that is the key to our strong performance.

We will consistently strive to ensure that our customers see us as the most innovative and forward-looking company in our industry while creating an environment in which both our employees and customers have the will to grow and develop.

THE PEOPLE BEHIND OUR SUCCESS

Our customers want a responsive and responsible partner that is continually striving to develop. It is all the people who are personally committed to ProfilGruppen who ensure that our customers have precisely that, and that we are seen as a competent and problem-solving partner.

It is my hope that all our employees will take pride in being part of our growth and that they will grow through that insight. An important strategic objective for ProfilGruppen is to work consistently and consciously to be an attractive workplace so that we are able to attract, retain and develop individuals with the right skills competence.

TRAINING AND LEADERSHIP DEVELOPMENT

Competence is crucial to our success. As we have grown rapidly over the past few years, recruiting many new, younger employees, we are now working on ensuring that the knowledge and experience of our more experienced employees and internal specialists in various areas, including material, process and design theory, are passed on to all our employees.

In 2017 we also arranged leadership training courses for our managers and leaders. We will continue to drive this and other skills development initiatives in 2018, which will benefit our customers while also allowing us to develop and grow.

INCREASED MARKET SHARE

Our delivery volumes increased by 15 per cent in 2017, of which 16 per cent refers to Sweden.

By comparison, trade association EAA reports that total growth was around two per cent in the European aluminium extrusion market and around three per cent in the Scandinavian market. We are growing faster than the market and capturing market share, especially in our Swedish home market.

Sales of new customer tools remained close to historic highs, which is a good sign that our customers, both new and existing, want to continue to grow together with us. Another strength is that our success in the market has been achieved through sales to large as well as medium-sized and small customers from many different industries.

We work continuously on strengthening our customer portfolio, for example by focusing on customers where a good match with our profile and knowledge can create the best possible long-term profitability potential. We want to further increase the degree of processing in our business and services, and will continue our efforts in this area in 2018.

EFFICIENCY

Efficiency is a cornerstone of our strategy. For us, this is about doing things in the right way and having efficient work methods and processes.

In addition to our constant efforts to improve processes and procedures, we invested around MSEK 20 in upgrading our existing production facilities in 2017 in order to leverage our machinery and ensure a constant high level of product quality. We have also taken a decision to invest around MSEK 18 in a new ERP system, which will be implemented in 2018. The intention is to create greater transparency as well as to introduce a simpler tool for monitoring and developing our operations in all their aspects, and for meeting our customers' future needs.

NEW PRODUCTION LINE

During the year we invested in a new, fully automated production line which is aimed at the new business in our PG&WIP subsidiary that we presented in autumn 2016. The new facility has been built immediately to PG&WIP's existing production plant in Åseda. Production will begin in early 2018 and will be ramped up to full capacity by the summer.

We will be producing extrusions in long lengths, which will then be processed into a finished product at the new facility. Pre-packaged interior design details will be delivered over a period of six years and sales are expected to total around MSEK 350 over the period.

NEW PRESS CAPACITY TO INCREASE GROWTH AND COMPETITIVENESS

In response to our strong volume growth over the last few years, we took a direction decision in the summer to invest in a new aluminium extrusion line based on modern and efficient technology, to be built next to the company's existing production plant in Åseda. Work on an in-depth pilot study has since been on-going to ensure that all the requirements for an investment are in place, including costings for land and infrastructure, financing and the necessary technical efficiency. The investment, which comprises machinery as well as property, is estimated to around MSEK 230 and will increase our annual production capacity for aluminium extrusions by about 10,000 tonnes.

We expect to make a decision on how to proceed with this investment in 2018.

ALUMINIUM – A CLIMATE-SMART CHOICE

Aluminium enables us, in collaboration with our customers, to develop products which reduce the environmental and climatic impact throughout the product lifecycle. The properties of the material enable us to create more energy-efficient and sustainable solutions and we welcome initiatives aimed at reducing carbon dioxide emissions, for example, as we together with our customers are able to help them with improvements.

A CHALLENGING AND STIMULATING MARKET

Despite our success, we do of course also face challenges. For example, we can never know in advance exactly how the market will react to various external factors. Yet I have strong confidence in Profilgruppen's ability to handle all challenges – we are growing and stand on stable ground, and our strengthened financial position will enable us to embark on new ventures in order to further develop our business.

I prefer to focus on what we know for sure right now: that there is a continued need for our products and that, as the market matures and becomes more aware of the benefits of aluminium, its properties and the opportunities it offers, this demand is set to grow over the long term. A stronger emphasis on environmental issues, energy efficiency and product lifecycles in society is creating future demand for aluminium across all industries and industry segments, and that is where we can, and should, make a contribution through our competence and our services.

FOCUS AREAS IN 2018

Creating customer benefits is, as always, a key focus area for us, and being our customers' first choice is central to our continued success.

In 2018 we will be following our adopted strategy consistently and continue the improvement work that paved the way for our record earnings in 2017. We will do this by:

- Strengthening our position and our brand in the market
- Increasing the share of processed products in our business
- Continuously challenging our customer platform for long-term growth and profitability
- Implementing operational improvements on a continuous basis
- Ensuring that we have people with the right skills in all parts of our organisation, and developing the skills of our existing employees
- Establishing the necessary framework for investments in new press capacity and technology in Åseda

FINALLY, I would like to state, once again, that Profilgruppen's success is the result of all the hard work done by our employees and of their commitment to the company. A skilled workforce is crucial to a company's success, all the more so in a company like Profilgruppen. I would like to thank all our employees for their tremendous contribution during the past year. I would also like to thank all our shareholders for the trust you have shown by investing in Profilgruppen. We will continue to work hard to ensure that Profilgruppen continues to evolve in the best way, with a focus on customers, continuous development and increased shareholder value.

Åseda, February 2018

Per Thorsell
President and CEO

RISKS AND RISK MANAGEMENT

Limiting the risks that any commercial undertaking inevitably involves must be a part of our operational as well as our strategic agenda.

Overall responsibility for the company's risk management rests with the Board of Directors. The CEO is responsible for ongoing risk management in accordance with the guidelines issued by the Board. A number of Group policies have been drawn up to support ProfilGruppen's day-to-day activities, including a financial policy and a raw material policy. The ambition is to achieve ProfilGruppen's general objectives through well-considered risk-taking within certain defined limits.

OPERATIONAL RISKS

DEPENDENCE ON CUSTOMERS

To reduce our dependence on individual customers, we strive to achieve a good spread of customers. In 2017, for the first time in many years, one customer accounted for more than ten per cent of revenues. This is due to the investment which the Group made through a new subsidiary that specialises in interior design details. Among our other customers we have the same spread as previously. The Group sells to a large number of customers, which inevitably means that some of these will occasionally experience payment problems. We credit insure the majority of our customers, and around 60 per cent (0) of consolidated net sales is covered by our credit insurance policy.

DEPENDENCE ON SUPPLIERS

The loss of a key supplier may result in costs and problems delivering to our customers. In order to reduce this risk, we have signed delivery agreements with strategic suppliers. In order to ensure that all key input goods are available, we have also developed contact with alternative suppliers.

ProfilGruppen continually evaluates its strategic suppliers to ensure that they meet our customers' requirements with regard to factors such as quality, delivery reliability, financial stability, environment and cost-effectiveness.

ECONOMIC CYCLE AND SEASONAL FLUCTUATIONS

Our customers are spread across several industries and geographic markets. This industry spread is a deliberate strategy aimed at reducing sensitivity to seasonal and cyclical fluctuations. Most of our major customers operate globally, which means that they, and indirectly ProfilGruppen, are affected by the strength of the global economy. Our industry soon feels the effects of any general weakening of the economy, and the same is true of a recovery in economic activity.

LIABILITY

Delivering to the automotive industry, for example, entails a liability risk. ProfilGruppen has overall liability to the customer, including for components processed by subcontractors. Future risks are covered by separate agreements and insurance policies. We work together with an external advisor on insurance and risk issues with regard to matters such as global product and recall liability. To prevent risks to health and safety, ProfilGruppen has established an internal reporting system for higher-risk situations that is available to all employees and that is used actively.

OUTAGES

To minimise disruptions in production, risk assessments are made on an ongoing basis along with preventive work at the Group's production facilities. Should such an event occur, the Group has consequential loss insurance that covers loss of contribution margins for up to 24 months.

ENVIRONMENT

There is always a risk that the Group's operations can cause damage to land, water and air, and to biological processes. Our extrusion production business is ISO 14001-certified, which supports our preventive efforts to minimise these risks. More stringent environmental requirements could give rise to costs as our operations need to be adjusted, and the Group's Environment Director is therefore keeping a close eye on any legislative changes in this field. You can read more about how ProfilGruppen is addressing environmental issues in our sustainability report.

SKILLS

ProfilGruppen is dependent on its ability to continuously attract, retain and develop individuals with the right skills profile. Working consciously to ensure that we are viewed as an attractive workplace, for existing as well as potential employees, is therefore an important part of the company's strategy. Our effort to ensure continuous skills development through internal and external training programmes is another important factor.

IT

With IT being a natural and important part of all our business processes, ensuring a very high level of availability is essential. Stoppages can lead to production losses, invoicing losses or reduced efficiency within various parts of the business. Our IT infrastructure is monitored continuously to ensure operational continuity. Redundancy is desirable in all parts of the IT infrastructure, which, along with constant development of the continuity plan, aims to minimise operational disturbances. Internal expertise focuses on business-critical and operationally critical systems.

CAPACITY

In the last few years, capacity utilisation in our extrusion production business has increased significantly. On top of the 29,700 tonnes we produced in 2017, we also have a limited potential to increase volumes at our existing plant. In summer 2017, we took a direction decision to invest in a new aluminium extrusion line to be built next to the Group's existing production plant in Åseda. An in-depth pilot study is on-going, and if all the pieces are in place, a decision to proceed will be made in 2018. The investment would increase our annual production capacity for aluminium extrusions by about 10,000 tonnes.

For the processing of our extrusions, we use an external network of subcontractors, who account for a significant share of the processed products that we deliver. This creates flexibility in terms of capacity but also requires a proactive effort in terms of assessing suitable suppliers. At our own facilities, machining is largely performed where there are opportunities for a high degree of automation or optimised production flows.

RAW MATERIALS

ProfilGruppen's main raw material is alloyed aluminium ingots. This expense item accounted for 45 per cent (42) of operating expenses in 2017.

The raw material is priced in US dollars on the London Metal Exchange (LME) and, historically, the price has been volatile. ProfilGruppen applies raw material clauses in customer contracts, which limits the company's sensitivity to fluctuations in the raw material price. There is always a certain price risk in inventory, however. Raw material purchases are controlled by the Group's raw material policy. Purchases are made in Swedish kronor (SEK) and euros (EUR) in order to match the customers' contract currency and thus reduce the currency risk. Raw material purchases are made in proportion to expected customer orders. Purchases for periods longer than six months are based on contracts with customers. ProfilGruppen's raw material committee meets once a week and checks that the policy is being followed. The supply of raw materials is ensured through deliveries from four different suppliers. As they all have a global presence, ProfilGruppen is able to guarantee its supply of raw materials, even if European consumption exceeds the production of aluminium in Europe.

ENERGY

ProfilGruppen's energy consumption comprises consumption of electrical energy – around 30 GWh per year – and LPG. In total, energy represents just under two per cent of the operating expenses. The Group had secured the price for most of its 2018 consumption by the end of the year.

FINANCIAL RISKS

CURRENCY RISKS

Currency risk means that a fluctuation in the exchange rate has an impact on the Group's results, cash flow or balance sheet. The foreign subsidiaries have very limited activities, and thus a limited balance sheet, and the Group therefore only protects itself against transaction risk related to currency exposure.

The Group has net inflows in all currencies. The company typically hedges 50-70 per cent of the flow within 6-18 months. This is preferably done through forward contracts.

US dollar fluctuations affect ProfilGruppen's customer prices because raw aluminium is priced in US dollars. Raw material clauses are included in the majority of contracts, which means that exposure can be minimised.

If the exchange rate between the Swedish krona and the most significant currencies moves by ten per cent, and provided that no exchange hedging measures have been taken, the following effects may be seen in profit before tax.

	2017	2016
EUR	MSEK +/-15	MSEK +/-12
DKK	MSEK +/-2	MSEK +/-2
NOK	MSEK +/-2	MSEK +/-1

INTEREST RATE RISK

Interest rate risk is the risk of an impact on the Group's earnings as a result of changes in market interest rates. To minimise the risk of such a short-term impact, the Group borrows at fixed rates and enters into interest rate swaps.

According to the financial policy, the interest fixing term is limited to 60 months and at least 30 per cent of the Group's loans must have variable interest rates.

CREDIT RISK

ProfilGruppen's credit risks arise when investing in financial instruments. To minimise this risk, trading is only permitted with a few counterparties approved by the Board of Directors.

REFINANCING RISK

The company has a permanent need to finance the capital requirements of the business. The company secures its financial requirements through bank loans. The policy is always to have loan promises or agreements for at least twelve months. The current agreement extends over twelve months. The agreement requires certain financial targets to be met.

DIRECTORS' REPORT

The Board of Directors and CEO of ProfilGruppen AB (publ), corporate identity number 556277-8943, hereby submit the annual report and consolidated financial statements for the period 1 January-31 December 2017, which is ProfilGruppen's thirty-seventh year of activity.

ProfilGruppen runs operations in the form of a limited company (publ) and has its registered office in Uppvidinge municipality, Kronoberg county, Sweden. The company address is: Box 36, SE-364 21 Åseda, Sweden.

THE GROUP

ProfilGruppen AB (publ) is the parent company of the ProfilGruppen Group. The Group is a supplier of customer unique aluminium components and extrusions. The core business is conducted in the subsidiary company ProfilGruppen Extrusions AB. The head office is located in Åseda, Småland, which is also home to most of the sales organisation. In addition, the company has sales offices in Stockholm, Skellefteå, Umeå, Norway and Germany. Design, product development, extrusion manufacture and processing are carried out mainly in Åseda. Processing is also performed in close co-operation with a number of subcontractors.

The jointly owned subsidiary company PG&WIP AB processes aluminium extrusions into pre-packaged details for a specific customer in the interior design industry. The company is 30 per cent owned by WIP Industries Sweden AB.

REVENUE AND PROFIT

ProfilGruppen generated revenues of MSEK 1,382.8 (1,132.0) in 2017, which is an increase of around 22 per cent on the year before. Delivery volumes have increased by around 15 per cent to 29,700 tonnes (25,800) of aluminium extrusions.

ProfilGruppen has continued to perform very well in its domestic market, and the increased revenue comes mainly from Swedish customers. The operations of PG&WIP and rising raw material prices have also helped to boost revenue.

Exports accounted for 45 per cent (45) of revenue.

The Group's operating profit amounted to MSEK 103.9 (69.1). This is equivalent to an operating margin of 7.5 per cent (6.1). ProfilGruppen's target is an operating margin of 8.0 per cent.

The improvement in earnings has been achieved through an increased degree of added value, partly through PG&WIP, as well as increased volumes and capacity utilisation. Margin improvements and operational efficiencies also contributed. Around 70 per cent of all aluminium extrusions delivered by ProfilGruppen were processed.

The profit before tax was MSEK 99.7 (65.0). The profit after tax was MSEK 77.3 (51.1).

Earnings per share were SEK 9.86 (6.56). The average number of shares in thousands was 7,399 (7,399).

INVESTMENTS, DEPRECIATION AND DISINVESTMENT

Investments amounted to MSEK 65.3 (50.8). A great investment project of about MSEK 50 in an automated production line for interior design details is on-going and increased investments for the year by MSEK 29.0. The new line will be commissioned in spring and reach full production by summer 2018. The remaining investments of MSEK 36.3 refer mainly to continuous improvements in our extrusion business.

Total scheduled depreciation/amortisation for the year was MSEK 37.2 (35.0).

No impairment losses were recognised in 2017 (none) and no previous impairment losses were reversed (none).

In the last few years, ProfilGruppen has seen strong organic growth through new customers and increased demand and requirements from existing customers.

In response to these developments, ProfilGruppen's Board of Directors took a direction decision in July 2017 to invest in a new aluminium extrusion line based on modern and efficient technology, to be built next to the company's existing production plant in Åseda. The investment criteria include costs for land and infrastructure, financing and the technical efficiency of the machinery. An in-depth pilot study is on-going, and if all the pieces are in place, a decision to proceed will be made in 2018.

The investment, which comprises machinery as well as property, is estimated at around MSEK 230 and will increase production capacity by about 10,000 tonnes of aluminium extrusions annually.

FINANCIAL POSITION AND CASH FLOW

ProfilGruppen has a target of a net debt to EBITDA ratio of less than 2.0. At 31 December 2017, net debt to EBITDA was 0.6 (0.9), which is well below our target level.

Return on capital employed in 2017 was 25.6 per cent (19.0).

The equity/assets ratio at year-end was 43.7 percent (44.6). Cash and cash equivalents amounted to MSEK 27.9 (11.3) at the end of the year, while the Group's non-utilised credit facilities, in addition to cash and cash equivalents, totalled MSEK 137.2 (153.8).

The cash flow from operating activities was MSEK 85.5 (84.9) and the corresponding figure after investments was MSEK 19.6 (44.0). ProfilGruppen's need for working capital increased during the year due to higher delivery volumes and rising inventories. The balance sheet total at 31 December 2017 was MSEK 742.1 (606.9).

MARKET

According to European trade association EAA's latest assessment, delivery volumes increased by around three per cent in Scandinavia and by around two per cent in Europe as a whole in 2017, compared to 2016. Our deliveries to the Swedish market increased by about 16 per cent compared to previous year. The increase covers all customer segments, with particularly strong growth in the construction and electrical industries.

FINANCIAL TARGETS

Operating margin

	Per cent
Result for the year	7.5
Target	8.0

In 2017, we raised our target for operating margin to 8 per cent.

Net debt/EBITDA

	Times
Result for the year	0.6
Target	< 2.0

In 2017 we replaced our target for net debt to equity with a target for net debt to EBITDA.

MANUFACTURING

All manufacturing activities in ProfilGruppen are based on the extrusion of aluminium. The company has three extrusion lines and a facility for surface treatment of extrusions. Group production of aluminium extrusions totalled 29,800 tonnes (25,925) in 2017. The extrusions are processed in many different ways. The company's own production facilities offer product-specific robot cells as well as machining, bending, cutting and punching. A wide variety of other processing services are sourced externally from a network of subcontractors. Our subsidiary company PG&WIP now has two fully automated production lines for machining, surface treatment and packing of interior design details for a specific customer.

DEVELOPMENT WORK

Constant improvement of processes and products is an important aspect of the Group's activities. New products and product models for existing or potential customers are created on a daily basis. Close collaboration with the customer helps to broaden knowledge of a customer's products, and constructive ideas can be put forward concerning possible improvements to product properties. During the construction and design phase, ProfilGruppen's designers have excellent opportunities to adapt a product's environmental impact, lifecycle economy and potential for recycling.

Process development is carried out in partnership with customers, raw material suppliers, and tool and machinery manufacturers. The expenditure associated with this work does not normally meet the criteria for reporting as assets, but is recognised as cost of goods sold and selling expenses in the consolidated income statement, see Note 6. For each development project, there is an assessment of whether or not the expenditure should be capitalised. During the year no development costs have been capitalised.

QUALITY

ProfilGruppen Extrusions AB was certified in accordance with the quality assurance system ISO 9002 in 1991. In 1999, ProfilGruppen became the first Nordic company in its sector to be certified in accordance with the automotive industry's quality system at the time. We have been certified under the ISO/TS 16949:2009 standard since 2006. Quality standards in the automotive industry are continually being raised and the latest update is IATF 16949:2016, under which ProfilGruppen is planning to certify itself during 2018.

ENVIRONMENT

The Group conducts operations that require a permit and are subject to notification requirements under the Swedish Environmental Code.

ProfilGruppen's environmental impact and sustainability work are described in greater detail in the company's sustainability report for 2017, which is available at www.profilgruppen.se.

RISKS

ProfilGruppen's activities are, like all business activities, exposed to risks, which are described in greater detail in Note 19 and on pages 6-7.

PERSONNEL

The average number of employees in the Group totalled 442 (379). The number of employees in the Group at 31 December 2017 totalled 453 (393). Women make up 28 per cent (28) of the Group's total workforce. Staff turnover during the year amounted to 6.2 per cent (3.6). Payroll expenses amounted to MSEK 190.1 (164.6).

SHARES AND SHAREHOLDERS

Each share in the company corresponds to one vote. The ownership interests that exceed ten per cent are Ringvågen Venture AB's 28.4 per cent, Lars Johansson's 14.5 per cent, and Mats and Kerstin Egeholm's 10.5 per cent.

Largest individual shareholders

Shareholders	Number of shares	Holding % 2017	Holding % 2016

December 2017

Other share-related information to be provided in the Directors' Report for a listed company in accordance with the Annual Accounts Act can be found in Note 15.

CORPORATE GOVERNANCE

The work of the Board of ProfilGruppen AB is regulated by the formal work plan, which is established annually at the Board meeting following election at the Annual General Meeting. Three of the members of the Board constitute the Remuneration Committee, which deals with remuneration-related matters. The Audit Committee consists of all members of the Board. Prior to the 2018 AGM, the Nominating Committee will be responsible for proposing Board members and auditors, as well as fees for the Board, committees and auditors. More information on the work of the Board and corporate governance at ProfilGruppen is available in the corporate governance report in this annual report and at www.profilgruppen.se.

REMUNERATION OF SENIOR EXECUTIVES

The Board prepares a proposal for guidelines for remuneration of the Group's CEO and other senior executives. The proposal is based on the company's long-term Remuneration Policy, which is evaluated on an ongoing basis. The Board of Directors proposes that the 2018 AGM adopt the following guidelines. The guidelines cover the Chief Executive Officer and other members of the management team, currently six individuals including the CEO. Total remuneration may consist of a fixed basic salary, variable remuneration, pension and other benefits. Variable remuneration, which is capped at 30 per cent of the fixed salary, is linked to the Group's results and only in specific instances to individual targets. Variable remuneration is conditional on a positive net result for the Group and will be retrospectively adjusted if it has been paid on apparently erroneous grounds. Agreements on pension benefits are arranged individually and the pension costs can amount to a maximum of 30 per cent of the fixed salary. Other remuneration and benefits shall be at market rates and shall help to facilitate the senior executive's opportunities to carry out their work. The employment contracts of members of the management team are generally terminable on six months' notice by either party. The Board may depart from the guidelines if there are special reasons in an individual case.

The guidelines that applied in 2017 are described in Note 4.

OUTLOOK FOR 2018

The market situation is expected to remain stable over the coming quarters.

THE PARENT COMPANY

Rental income and payments for services from companies in the Group account for 99 per cent of revenues in the parent company, ProfilGruppen AB. The parent company has no employees (0).

DIVIDEND

The Board and the CEO propose that standing profits available as per the balance sheet, of SEK 122,137,723, be appropriated in the following manner:

Dividend to shareholders SEK 4.50 * 7,398,775 shares	SEK 33,294,488
To be carried forward	SEK 88,843,236
Total profits according to balance sheet	SEK 122,137,723

Under its dividend policy, the company aims to distribute 40-50 per cent of earnings after tax over a business cycle to the shareholders, having regard to capital requirements and the capital structure.

ANNUAL REPORT AND SUSTAINABILITY REPORT

Details of the company's and the Group's profits and overall financial position may be found in the following income statement and balance sheet with the Notes to these accounts. The consolidated income statement and balance sheet and the parent company's income statement and balance sheet for 2017 are to be submitted for approval at the Annual General Meeting on 17 April 2018.

In accordance with ÅRL 6 Chapter 11§, ProfilGruppen has chosen to establish the statutory sustainability report as a report separated from the annual report. The sustainability report has been submitted to the auditor at the same time as the annual report. The sustainability report is available at www.profilgruppen.se.

FIVE-YEAR SUMMARY

		2017	2016	2015	2014	2013
Net sales/Revenue	MSEK	1,382.8	1,132.0	980.2	808.6	730.0

NOTES

1 ACCOUNTING PRINCIPLES

COMPLIANCE WITH SET STANDARDS AND LEGISLATION

The consolidated financial statements have been drawn up in accordance with International Financial Reporting Standards (IFRS) issued by the International Accounting Standards Board (IASB) as approved by the EC Commission for application within the EU. In addition, RFR 1 Supplementary Accounting Regulations for Groups has also been applied.

Unless otherwise stated under the heading The parent company's accounting principles, the same principles are applied to the parent company as to the Group. Any deviations that occur are due to restrictions in the ability to apply IFRS to the parent company as a result of the Swedish Annual Accounts Act (ÅRL) and the Act on Safeguarding of Pension Obligations (Tryggandelagen) and, in some instances, are for tax purposes.

ASSUMPTIONS DURING PREPARATION OF THE PARENT COMPANY'S AND THE GROUP'S FINANCIAL STATEMENTS

The parent company's functional currency is Swedish krona, which is the reporting currency for both the parent company and the Group. The financial statements are therefore presented in Swedish krona (SEK). All amounts, unless stated otherwise, are rounded off to the nearest million kronor. Assets and liabilities are recognised at historical cost, with the exception of certain financial assets and liabilities that are measured at fair value. Financial assets and liabilities measured at fair value comprise derivative instruments

The accounting principles set out below for the Group have been applied consistently to those periods included in the consolidated financial statements, unless otherwise stated below. The Group's accounting principles have been applied consistently to any reporting and consolidation of subsidiaries.

REVISED ACCOUNTING PRINCIPLES

The accounting principles applied are consistent with those that were applied the previous year with the exceptions indicated below.

The following standards, amendments and interpretations, which became effective in 2017, have been applied but have no, or no material, impact on the consolidated financial statements.

- IAS 7 Statement of Cash Flows (Amendment). A new disclosure requirement has been introduced that will enable users of financial statements to assess the change in liabilities arising from financing activities. The amendments must be applied prospectively for financial years beginning on 1 January 2017 or later. The amendments have not had a material impact on the financial statements.
- IAS 12 Income Taxes – Amendment. The amendments clarify how deferred tax should be accounted for when debt instruments are measured at fair value and that any limitations on the ability to use tax losses must be taken into account in determining deferred tax assets. The standard must be applied retroactively for financial years beginning on 1 January 2017 or later. The amendment has not affected the consolidated financial statements.

In 2017, the Group has not applied any standard, amendment or interpretation with the possibility for early adoption.

The following standards, amendments and interpretations, which will apply from 1 January 2018, could have an impact on the consolidated or parent company financial statements.

- IFRS 9 Financial Instruments – IFRS 9 deals with the classification, measurement and recognition of financial assets and liabilities, and introduces new rules for hedge accounting. The full version of IFRS 9 was released in July 2014. It replaces those parts of IAS 39 which relate to the classification and measurement of financial instruments, and introduces a new impairment model. The standard has been adopted by the EU.

IFRS 9 will be applied by the Group for the financial year beginning on 1 January 2018. The Group will not be restating comparative figures for the financial year 2017, in accordance with the standard's transition rules.

In autumn 2017, an assessment was made in respect of the classification and measurement of the Group's financial instruments. It was established that the new rules for classification and measurement will not have any impact on the Group's financial position at the transition date, as the rules will not result in any changes in respect of the measurement of the financial instruments recognised in the consolidated balance sheet at that time.

IFRS 9 introduces a new impairment model that is based on expected credit losses and that takes account of prospective information. The Group has historically incurred very small credit losses and its customers are stable companies. From a prospective perspective, too, the assessment is that the probability of default among our customers is low. The conclusion is thus that no further impairment losses on trade receivables will be required.

IFRS 9 will thus have no impact on the Group's financial position at the effective date, 1 January 2018.

A project is underway aimed at analysing what further information may be required to meet the disclosure requirements of the revised IFRS 7.

- IFRS 15 Revenue from Contracts with Customers – IFRS 15 introduces requirements for the recognition of revenue and replaces IAS 18 Revenue, IAS 11 Construction Contracts and several related interpretations. The new standard provides more detailed guidance in many areas that have not previously been covered by the applicable IFRS, notably on how to account for contracts with multiple performance obligations, variable pricing, the customer's right of return, etc. The standard has been adopted by the EU. The standard will be applied as of the financial year 2018.

In 2017, an assessment was made to identify potential differences between the current accounting principles and IFRS 15. Based on the results of this assessment, a further analysis has been made based on the five-step model in IFRS 15.

The conclusion from the analysis is that there are no material differences between the currently applied accounting principles and the guidance, either in respect of the identification of performance obligations in the contracts or any allocation of price in IFRS 15. As under the current principles, product sales will be recognised when the risks are transferred under the contracts, which, according to the analysis, also meets the criteria for transfer of control provided for in IFRS 15.

The final assessment is thus that the introduction of IFRS 15 will have no material impact on the Group's financial position.

The Group has chosen to apply the modified transition method in applying IFRS 15 as of 1 January 2018. This will only affect the required disclosures.

- IFRS 16 Leases – IFRS 16 was published by the IASB in January 2016. The standard has been adopted by the EU and will replace IAS 17 Leases and the related interpretations, IFRIC 4, SIC-15 and SIC-27. IFRS 16 requires that assets and liabilities attributable to all leases, with the exception of short-term leases or leases of low value assets, be recognised in the balance sheet. This accounting treatment is based on the view that the lessee has a right to use an asset during a specific period of time as well as an obligation to pay for this right. This means that most of the Group's current operating leases will need to be recognised in the balance sheet from 2019.

The Group has initiated an assessment of what effect IFRS 16 will have on the consolidated financial statements. The Group is currently reviewing all leases, and is collecting and compiling information to be used as a basis for calculations and quantification in connection with the transition to IFRS 16. The Group mainly has leases for the rental of warehouse and office space. All leases in the Group are currently accounted for as operating leases. In connection with the transition to IFRS 16, the majority of these leases will be recognised in the balance sheet as a right of use asset and a financial liability. The Group's non-cancellable leases are presented in Note 6.

The Group has not yet decided which transitional provision to apply – full retrospective application or partial retrospective application (which means that comparative figures do not need to be restated).

CRITICAL ESTIMATES

Drawing up the financial reports in accordance with IFRS requires the company's management to make estimates and assumptions that affect the application of the accounting principles as well as the reported amounts. Any estimates and assumptions are based on historical experience and a number of other factors that under current circumstances appear reasonable. The result of these estimates and assumptions is then used to determine the carrying amounts of assets and liabilities that cannot be clarified by other means or sources. The actual outcome may differ from these estimates and assessments.

The following important estimates have been made when applying the Group's accounting principles.

Inventories

Inventories are measured at the lower of cost and net realisable value, which usually means measurement at cost. See also the heading Inventories.

The net realisable value is to some extent an estimate based on forecasts from customers but also on historical data.

Unsecure trade debtors

On each closing day the Group assesses whether there is any indication of a write-down requirement for credit risks. The assessment is made individually per customer, initially in consultation between the sales customer manager and the Group's Credit Controller.

Write-down review of goodwill

When calculating the recoverable amount of cash-generating units for the assessment of any write-down requirement for goodwill, several assumptions about future relationships and other parameter estimates were necessary. Please refer to Note 10.

Assumptions concerning pensions

To calculate pension assumptions, management has made estimates of the discount rate and other parameters. The assessment of these parameters is based on expectations. If the actual values of the parameters were to differ from the expected values an actuarial gain or loss will be recognised in other comprehensive income in the consolidated financial statements. For a sensitivity analysis of the most significant of these assumptions, see Note 4.

CLASSIFICATION ETC.

Non-current assets and non-current liabilities consist largely of amounts that are expected to be recovered or for which there is a right to payment more than twelve months after the closing date.

Current assets and current liabilities essentially consist of amounts that are expected to be recovered or for which there is a right to payment within twelve months of the closing date.

For each balance-sheet item that includes amounts expected to be recovered or paid both within and after twelve months from the closing date, this information is provided in a note to the relevant balance-sheet item.

CONSOLIDATION PRINCIPLES

All companies in which the Group has a controlling interest are classified as subsidiaries. Subsidiaries are included in the consolidated financial statements as of the date on which the controlling interest is transferred to the Group. They are excluded from the consolidated financial statements as of the date on which the controlling interest ceases to exist.

The purchase method is applied in accounting for the Group's business combinations (see Note 21).

Intra-Group receivables and liabilities, revenue or expenses and unrealised gains or losses that arise through intra-Group transactions between Group companies are eliminated in their entirety during preparation of the consolidated financial statements.

FOREIGN CURRENCY

Transactions in a foreign currency

Transactions in a foreign currency are converted to the functional currency at the exchange rate on the transaction day. Functional currencies are the currencies in the primary economic environments where companies in the Group operate. Monetary assets and liabilities in foreign currencies are converted to the functional currency at the closing date rate. Exchange rate differences that arise during conversion are recognised in the income statement. Non-monetary assets and liabilities that are recognised at historical cost are converted at the exchange rate on the transaction day. Non-monetary assets and liabilities that are recognised at fair value are converted to the functional currency at the exchange rate in effect at the time the fair value is measured, at which point exchange rate changes are recognised together with other changes in the value of the asset or liability.

Financial reports concerning foreign operations

Assets and liabilities in foreign operations are translated to Swedish kronor at the closing rate. Revenue and expenses from a foreign operation are converted to Swedish krona at an average exchange rate that is an approximation of the rates on each transaction day. Translation differences that arise through currency conversion for foreign operations are recognised in other comprehensive income.

INCOME

The Group's revenue essentially consists of sales of goods. Revenue is recognised when the significant risks and rewards of ownership of the goods have been transferred to third parties in accordance with agreed terms of delivery. The timing of recognition of revenue therefore varies depending on the terms of delivery. The revenue is recognised at the fair value of what was received or will be received less discounts allowed. Revenue is not recognised if it is likely that the Group will not gain from the economic benefits.

FINANCIAL INCOME AND EXPENSES

Financial income and expenses comprise interest income from bank balances and receivables and interest expenses on loans, dividend income, exchange rate differences, unrealised and realised gains and losses on interest rate swaps used within financial activities.

Dividend income is recognised once the right to receive payment has been determined. Borrowing costs directly attributable to the purchase, construction or production of a qualified asset which necessarily takes a substantial period of time to get ready for its intended use or sale are capitalised and included in the cost of the asset. Other borrowing costs are accounted for in accordance with the effective interest method.

FINANCIAL INSTRUMENTS

Financial instruments recognised in the statement of financial position include, on the asset side, cash and cash equivalents, trade receivables and derivatives. Items regarded as liabilities and equity include trade payables, loans and derivatives.

IAS 39 classifies financial instruments into categories. Classification depends on the intended purpose of the acquisition of the financial instrument.

A financial asset or financial liability is taken up in the accounts when the company becomes party to the instrument's contractual terms. Any liability is taken up once the other party has performed their contractual obligations for which payment is required, even if no invoice has been received.

A financial asset is removed from the balance sheet once the rights as per the contract are realised or fall due, or the company loses control of them. The same applies to part of a financial asset. A financial liability is removed from the balance sheet once the obligation under the contract has been fulfilled or has otherwise expired. The same applies to part of a financial liability. The acquisition and sale of financial assets is recognised on the trade date, which is the day on which the company commits itself to acquire or sell the asset, except in those instances when the company acquires or sells listed securities, which are instead recognised on the settlement date.

Financial instruments are initially recognised at fair value. Subsequent measurement then depends on how instruments are classified in accordance with the following.

Financial assets and liabilities are netted and the net amount is recognised in the balance sheet only when there is a legal right of netting the carrying amounts and an intention to settle them by a net amount or to simultaneously realise the asset or liability. The legal right must not depend on future events and must be legally binding for the company and the counterparty both in case of normal business activities and in the event of default, insolvency or bankruptcy.

The fair value of financial assets and liabilities is calculated based on the hierarchy described in IFRS 13. A majority of ProfilGruppen's financial assets and liabilities are measured in accordance with Level 2 of this hierarchy, i.e. based on observable inputs such as market prices. For additional information, see Note 19.

On each reporting date, the company assesses whether there are any objective indications that a financial asset or a group of financial assets is in need of impairment.

The IAS 39 categories used by the Group are as follows:

Loans and receivables

Loans and receivables are non-derivative financial assets with fixed or determinable payments that are not listed on an active market. Receivables arise when companies provide money, goods or services direct to the debtor with no intention of trading the receivable. Assets in this category are measured at amortised cost. Amortised cost is determined based on the effective interest rate as calculated on the acquisition date.

Trade receivables belong to the Loans and receivables category. Trade receivables are taken up in the balance sheet once an invoice has been issued. Trade receivables are expected to have a short maturity, so the value is recognised without discounting. Trade receivables are recognised at the amount that is expected to be received. Impairment of trade receivables is recognised in the operating expenses. Trade receivables in foreign currencies are converted to the functional currency at the closing date rate.

Other financial liabilities

Financial liabilities that are not held for trading are measured at amortised cost. Amortised cost is determined based on the effective interest rate as calculated when the liability was taken up. This means that surplus and deficit values, such as direct financing and issue expenses, are allocated over the term of the liability by applying the effective interest method.

Assets and liabilities valued at fair value through profit or loss.

All derivatives are reported at fair value in the balance sheet. For cash flow hedges, value changes are recognised in comprehensive income pending the hedged item being recognised in profit or loss. Hedge accounting is described in greater detail below.

Cash and cash equivalents

Cash and cash equivalents comprise cash balances and call deposits with banks.

Liabilities

Liabilities are classified as Other financial liabilities. Non-current liabilities mature later than one year from the closing date while current liabilities have a maturity of less than one year.

Trade payables

Trade payables belong to the Other financial liabilities category. Trade payables are taken up once an invoice has been received. Trade payables have a short expected maturity and are measured without discounting.

DERIVATIVES AND HEDGE ACCOUNTING

The Group's derivative instruments have been procured in order to hedge the risks associated with interest and currency exposure to which the Group will be subjected. A derivative is recognised initially at fair value, meaning that transaction costs burden the profit/loss for the year. After the initial reporting, the derivative instrument is measured at fair value and value changes are reported as described below.

ProfilGruppen does not apply hedge accounting in accordance with IAS 39. In order to meet the requirements for hedge accounting, an unambiguous link to the hedged item is required. It must also be the case that hedging effectively protects the hedged item, that hedge documentation must be created and that effectiveness is measurable. Gains and losses associated with hedging are recognised in profit or loss at the same time as gains and losses are recognised for hedged items.

In cases where the conditions for hedge accounting are no longer fulfilled, the derivative instrument is recognised at fair value with the value change through profit or loss in net financial income/expense.

Transaction exposure – cash flow hedges

Currency exposure regarding future contracted and forecast flows is hedged through currency futures. The currency future that protects the forecast flow is recognised in the balance sheet at fair value. Changes in the fair value of the forward contract are recognised in other comprehensive income and accumulated in equity as long as the hedge is effective. If the hedge is ineffective or if the hedged forecast transaction is no longer expected to occur, accumulated gains or losses are recognised in profit or loss immediately. The amount recognised in equity through other comprehensive income is reclassified to profit or loss in the same period in which the hedged item affects profit or loss. When a hedging instrument falls due, is sold, liquidated or redeemed, or the company modifies identification of the hedge relationship before the hedged transaction has occurred and the forecast transaction is still expected to occur, the reported cumulative gain or loss in the hedging reserve remains as equity and is recognised in a similar way to that above when the transaction occurs.

Hedging of the Group's fixed interest – cash flow hedges

Interest rate swaps are used to hedge interest risks. These interest rate swaps are measured at fair value in the balance sheet. In profit or loss, the interest coupon part is continuously recognised as interest income or interest expense; any other value change in the interest rate swap is recognised in other comprehensive income, provided the criteria for hedge accounting and effectiveness are met.

PROPERTY, PLANT AND EQUIPMENT

Owned assets

Property, plant and equipment are reported as assets in the balance sheet if it is likely that future financial advantages will be available to the company and the cost of the asset can be calculated in a reliable way. Property, plant and equipment are

recognised for the Group at cost after deductions for accumulated depreciation and any impairment losses. The cost includes the purchase price and expenses directly attributable to the asset in order to acquire it in a condition where it can be utilised in accordance with the aim of the acquisition. Principles for impairment losses are dealt with below.

The cost of non-current assets produced in-house includes material costs, expenditure on employee remuneration, if applicable, other manufacturing costs that are thought to be directly attributable to non-current assets, as well as estimated expenditure on disassembly and removal of assets and restoration of the site or area where required.

Property, plant and equipment that comprise elements with different useful lives are treated as separate components of property, plant and equipment. The carrying amount of an item of property, plant and equipment is removed from the balance sheet when the asset is scrapped or sold off or when no future economic benefits are expected from use or scrapping/selling of the asset. Any gain or loss arising from the sale or scrapping of an asset comprises the difference between the sale price and the asset's carrying amount less direct selling expenses. Gains and losses are reported as other operating revenue/expense.

Leased assets

Leases where the Group assumes or transfers all essential risks and benefits associated with a non-current asset are classified as finance leases. When the Group is the lessee the asset is capitalised and a corresponding interest-bearing current or non-current liability is recognised in the statement of financial position. The capitalised value is subject to planned depreciation/amortisation in the same way as purchased assets.

Leasing of assets where the Group does not assume all significant risks and benefits is classified as an operating lease and is not capitalised but the lease payments are recognised as a current expense.

Under finance leases in which the Group is the lessor, future lease payments and any residual values guaranteed by the Group are recognised as a financial asset. Lease payments are recognised as interest income and repayment of lease receivables.

Depreciation methods

Depreciation is performed linearly over the asset's estimated useful life. The Group applies component depreciation, which means that the components' assessed useful life forms the basis for depreciation, see Note 11. Real estate is divided chiefly into land and buildings. No depreciation is performed for land, the useful life of which is judged to be indeterminable.

An asset's residual value and useful life are assessed annually.

INTANGIBLE ASSETS

Goodwill

Goodwill represents the difference between the cost for a business combination and the fair value of acquired assets, assumed liabilities and contingent liabilities.

Goodwill is measured at cost minus any cumulative impairment losses. Goodwill is divided among cash-generating units and is tested annually for impairment. Goodwill is not amortised.

INVENTORIES

Inventories are measured at the lower of cost and net realisable value. Inventories comprise a raw material portion (aluminium) and a processing portion.

The cost of raw materials and direct materials is determined based on the first-in, first-out principle. The cost of the processing portion consists of direct manufacturing costs and a reasonable proportion of indirect manufacturing costs. During measurement, consideration is paid to normal capacity utilisation.

Net realisable value is the estimated sale price less selling expenses.

IMPAIRMENT

The reported values of the Group's assets, with the exception of inventories, are reviewed on each closing date to assess whether there is any indication of impairment. If an impairment indicator exists, the asset's recoverable amount is calculated. The valuation of assets that are exempt as per the above is tested as per the relevant standard. For goodwill the recoverable amount is calculated at least once a year.

If it is not possible to establish essentially independent cash flows for an individual asset, the assets are grouped at the lowest level at which it is possible to identify essentially independent cash flows (a cash-generating unit).

An impairment loss is recognised when an asset or cash-generating unit's carrying amount exceeds the recoverable amount. An impairment loss burdens the profit/loss for the year.

The recoverable amount is the higher of the fair value less selling expenses and value in use. When calculating the value in use, future cash flows are discounted using a discount factor that takes into consideration risk-free interest and the risk

that is associated with the specific asset.

Impairment test of financial assets

On each reporting date, the company assesses whether there is any objective indication of impairment of a financial asset or a Group of assets. Objective evidence consists partly of observable circumstances that have arisen and that have a negative impact on the ability to recover the cost, and partly of a significant or protracted decrease in the fair value of an investment in a financial investment classified as an available-for-sale financial asset.

Reversal of impairment

An impairment loss is reversed if there is an indication that the impairment loss may no longer exist and there has been a change in the assumptions on which the calculation of the recoverable amount was based. However, goodwill impairment losses are never reversed. A reversal is only performed to the extent that the asset's carrying amount after reversal does not exceed the carrying amount that would have been recognised, less depreciation/amortisation where appropriate, if no impairment had been made.

EMPLOYEE BENEFITS

Defined contribution pension schemes

Obligations regarding contributions to defined contribution pensions are reported as an expense in the income statement as they occur.

Defined benefit pensions

Commitments for old-age pensions and family pensions for salaried employees in Sweden are met through insurance with Alecta. In accordance with UFR 10, this is a multi-employer defined benefit pension plan. The company has not had access to such information that makes it possible to report this pension as a defined benefit scheme. The pension plan as per ITP that is met through insurance with Alecta is therefore reported as a defined contribution pension.

In Norway, all employees are covered by defined benefit pension schemes. In Sweden, some employees are covered by defined benefit pension plans in addition to those which are insured through Alecta. However, there are no new earned pension entitlements in these schemes.

The Group's net obligation regarding defined benefit pensions is calculated separately for each pension scheme by estimating future benefits earned by employees through their employment during both current and earlier periods; this benefit is discounted to a present value and the fair value of any plan assets is deducted. The discount rate is the interest rate on a risk-free investment in an active market with a maturity corresponding to the plan's pension obligations. The calculation is performed by qualified actuaries using the projected unit credit method.

When the benefits associated with a pension improve, the proportion of the increased benefit that is attributed to employees' employment during earlier periods is recognised as an expense in profit or loss on a straight-line basis over the average period until the benefits are earned completely. If the benefit is earned completely, an expense is recognised directly in profit or loss.

When there is a difference in how the pension expense is established in a legal entity and group, a provision or claim is reported in relation to special payroll tax based on this difference. The provision or claim is not calculated as a present value.

Taxes

Income tax consists of both deferred and paid tax. Income tax is recognised in profit or loss unless the underlying transaction is recognised in other comprehensive income, in which case the related tax effect is recognised in the same way.

Current tax is tax that must be paid or received in relation to the current year, with application of the tax rates that have been adopted or adopted in practice as of the closing date; this also includes adjustment of current tax attributable to earlier periods.

Deferred tax is calculated in accordance with the balance sheet method based on temporary differences in the carrying amount of assets and liabilities and the value for tax purposes. A temporary difference that occurred during initial recognition of goodwill is not taken into consideration, and neither are temporary differences attributable to participations in subsidiaries that are not expected to be reversed within the foreseeable future. The valuation of deferred tax is based on how carrying amounts of assets or liabilities are expected to be realised or regulated.

Deferred tax is calculated with application of the tax rates and tax rules that have been adopted or adopted in practice as of the closing date. Deferred tax assets regarding deductible temporary differences and tax loss carry-forwards are recognised only to the extent it is likely these can be utilised. The value of deferred tax assets is reduced when it is assessed to be no longer likely that these can be utilised.

Any additional income tax that arises through dividends is recognised at the same time as the dividend is recognised as a liability.

Contingent liabilities (guarantees)

A contingent liability is recognised when there is a possible obligation arising from events whose occurrence is dependent only on one or more uncertain future events, or there is a commitment that is not recognised as a liability or provision because it is unlikely that an outflow of resources will be required.

PARENT COMPANY'S ACCOUNTING PRINCIPLES

The parent company has drawn up its annual accounts in accordance with the Swedish Annual Accounts Act and the Swedish Financial Accounting Standards Council's recommendation RFR 2 Accounting for Legal Entities. RFR 2 means that the parent company in the annual accounts for the legal entity must apply all IFRS and amendments approved by the EU, provided this is possible within the framework of the Annual Accounts Act and with regard to the connection between accounting and taxation. The recommendation states which exemptions from and additions to IFRS are to be made.

The accounting principles mentioned below for the parent company have been applied consistently in all periods recorded in the parent company's financial reports.

Property, plant and equipment

Property, plant and equipment in the parent company are reported at cost after deductions for accumulated depreciation and any write-downs in the same way as for the Group. Leased assets are accounted for in accordance with the rules for operating leases.

Financial instruments

The parent company does not apply the measurement rules in IAS 39. In the parent company financial fixed assets are measured at cost less any impair-

ment. Current financial assets are accounted for by applying the lower of cost or market method.

Dividends

Anticipated dividends from subsidiaries are reported in those instances where the parent company alone has the right to determine the size of the dividend, and where the parent company has made a decision on the size of the dividend before it has published its financial reports.

Taxes

The parent company reports untaxed reserves including deferred tax liability.

Group contributions and shareholders' contributions for legal entities

The parent company reports Group contributions and shareholders' contributions in accordance with the statement from the Swedish Financial Reporting Board and applies its main rule, under which Group contributions are accounted for as appropriations.

2 INCOME

Information on operating segments

The Group's chief operating decision-maker follows the outcome of activities on a consolidated basis with no breakdown by segment or branches. The chief operating decision-maker uses the company's aggregate operating profit or loss as the basis for decisions about resource allocation and assessing performance. Profilgruppen thus consists of only one segment. For financial information on the segment, please refer to the statement of comprehensive income and the statement of financial position, Note 11 (for investments and depreciation/amortisation) and Note 22 (for cash flow effects).

Information on geographical markets

Sales are mainly to customers in Europe, where the market conditions are similar. Goods are sold for export partly through sales staff who are integrated in the Swedish organisation and based in Sweden and partly through a small number of sales representatives who report directly to the Swedish organisation but are employed in sales companies in each export market. In the first instance, the Group's opportunities and risks are not affected by the location of our customers, but conditions do differ somewhat on the home and export markets. Information on external sales refers to geographical areas grouped according to customer location.

External sales by market	2017	2016
Sweden	761.1	624.4
Germany	240.0	195.1
Other exports	381.7	312.5
	1,382.8	1,132.0

All of the Group's non-current assets are located in Sweden.

One customer accounted for 11 per cent of total revenues in 2017. In the previous year, no individual customer accounted for more than ten per cent of revenues. Revenue for the Group refers to the revenue source sale of goods. Rents for commercial premises from Swedish companies in the Group account for 99 per cent of the parent company's revenue.

3 OTHER OPERATING REVENUE AND EXPENSES

Total, Group	3.0	187.1	3.2	161.4

Profit sharing

In 2017, all permanent Profilgruppen employees benefited from a profit-sharing scheme. Consolidated earnings after financial items constituted the basic criterion for profit sharing, and the cost for 2017 was kSEK 4,179 (2,451) including social security contributions.

Pensions

	Group		Parent company	
Cost of defined contribution plans recognised in income statement	2017	2016	2017	2016
as cost of goods sold	9.3	7.2	0.0	0.0
as selling expenses	5.3	4.2	0.0	0.0
as administrative expenses	5.1	3.5	0.0	0.0
	19.7	14.9	0.0	0.0

Defined benefit pension schemes

For salaried employees in Sweden the ITP2 defined benefit pension obligations for retirement and family pensions are secured through an insurance policy with Alecta. As per a statement from the Swedish Financial Reporting Board, UFR 10, this is a multi-employer defined benefit pension plan. For the financial year 2017, the company has not had access to information that would enable it to account for its proportionate share of the plan's obligations, assets and expenses. It has therefore not been possible to report the plan as a defined benefit plan. The ITP2 pension plan that is secured through an insurance policy with Alecta is therefore accounted for as a defined contribution pension. The premium for defined benefit retirement and family pensions is calculated individually and depends on factors such as salary, previously earned pension and expected remaining period of service. Expected fees in the next reporting for ITP2 insurance policies with Alecta are MSEK 2.3 (2.0) excluding payroll tax. The Group's share of the total contributions to the plan and of the total number of active members is 0 and 0 per cent, respectively.

The collective funding ratio comprises the market value of Alecta's assets as a percentage of insurance commitments calculated in accordance with Alecta's actuarial methods and assumptions, which do not correspond to IAS 19. The collective funding ratio is normally permitted to vary within a range of 125 and 155 per cent. If Alecta's collective consolidation level were to fall below 125 per cent or exceed 155 per cent it would be necessary to take measures to create conditions under which the level can return to the normal range. In case of a low consolidation level one measure that can be taken is to raise the agreed price for new subscriptions and an increase in the existing benefits. A high consolidation level can be addressed by introducing premium reductions. At the end of 2017, Alecta's surplus in the form of the collective funding ratio amounted to 154 per cent (149).

There are other defined benefit pension schemes that provide benefits for retiring employees, both for employees in Sweden and for employees in Norway. There are no new earned pension entitlements for the Swedish scheme. The parent company does not have any defined benefit plans.

Fully or partially funded obligations	Group				
	2017	2016	2015	2014	2013

Future increases in pensions	1.9%	1.5%	2.3%	2.3%
Staff turnover	-	-	0.0	0.0
Expected remaining employment period	0 years	0 years	6 years	7 years
Average remaining maturity of the obligation	15 years	16 years	25 years	26 years
Average life expectancy, women	89 years	89 years	89 years	89 years
Average life expectancy, men	87 years	87 years	86 years	86 years

The discount rate for the Norwegian plan is based on the market yield on mortgage bonds with a maturity corresponding to the remaining term of the obligation, 25 years. For the Swedish plan, the discount rate has been based on the market yield on mortgage bonds with a maturity corresponding to the remaining term of the obligation, in this case 15 years.

Plan assets only exist in the Norwegian scheme and consist chiefly of interest-bearing securities, which account for 78 per cent (86). Other assets are shares 11 per cent (7), real estate 10 per cent (7) and other 1 per cent (0).

The actual return on plan assets in the Norwegian plan in 2017 is not known (2016: not known).

Our best estimate of payments to defined benefit pension plans in 2017 is MSEK 0.7.

Guidelines for remuneration for senior executives

The members of the Board receive remuneration in accordance with the decisions of the Annual General Meeting.

The Board prepares a proposal for guidelines for remuneration of the Group's CEO and other senior executives. The guidelines are based on the company's long-term Remuneration Policy, which was revised in February 2017.

The 2017 Annual General Meeting adopted a set of guidelines for the CEO and other members of management, a group comprising six persons at the time of the AGM. The decision encompasses guidelines as follows. Total remuneration may consist of a fixed basic salary, variable remuneration, pension and other benefits. Variable remuneration, which is capped at 25 per cent of the fixed salary, is linked to the Group's results and only in specific instances to individual targets. Variable remuneration is conditional on a positive net result for the Group and will be retrospectively adjusted if it has been paid on apparently erroneous grounds. Agreements on pension benefits are arranged individually and the pension costs can amount to a maximum of 30 per cent of the fixed salary. Other remuneration and benefits shall be at market rates and shall help to facilitate the senior executive's opportunities to carry out their work. The employment contracts of members of the management team are generally terminable on six months' notice by either party. The Board may depart from the guidelines if there are special reasons in an individual case.

The guidelines which the Board intends to propose to the 2018 AGM are presented in the Directors' Report.

During the year, the CEO of Profilgruppen AB has received kSEK 2,340 (1,848) in fixed and variable remuneration, including benefits.

Other senior executives, totalling five people (five), have received kSEK 6,118 (4,163) in fixed and variable remuneration, including benefits.

During the year, the cost for variable remuneration, excluding social security contributions, to executive management (six persons) amounted to a total of kSEK 1,691 (six persons, kSEK 1,453), of which kSEK 450 (414) was paid out to the CEO. The previous year's remuneration was paid during the year.

The current CEO's employment contract is terminable on six months' notice by the CEO and on twelve months' notice by the company. One other senior executive has a contract terminable on twelve months' notice by the company. Other senior executives' contracts are terminable on six months' notice.

Pension benefits and pension agreements for senior executives

For the CEO, a defined benefit pension provision of 30 per cent of his total salary has been made. The annual pension costs for the CEO amounted to kSEK 637 (506), excluding special payroll tax of kSEK 155 (123). There are no agreements for early retirement.

Other senior executives during the year, five people (five), are covered by the pension plan for salaried employees in Sweden (ITP). The annual pension costs for these people amounted to kSEK 1,392 (897), excluding special payroll tax of kSEK 338 (218). The pensions are transferable and so are not conditional on future employment.

There are no other agreements on severance pay.

Impairment of property, plant and equipment and intangible assets	0.0	0.0
Other operating expenses	265.3	202.2
	1,282.1	1,062.9

Other operating expenses include lease payments for the Group of MSEK 5.5 (5.1). The total sum of future non-redeemable lease payments amounts to MSEK 10.0, of which MSEK 3.9 is due within one year. The remaining MSEK 6.1 falls due in one to five years. Lease costs comprise operating lease contracts concerning IT equipment and means of transport. The parent company is not a lessee.

The cost of developing products and the business amounts to MSEK 7.9 (6.8) and is included in the operating expenses divided into personnel costs and other operating expenses. During the year, none of these costs have been capitalised in accordance with IAS 38.

Impairment test for cash-generating units containing goodwill

ProfilGruppen tests the value of goodwill at least once a year and when there is an indication of impairment. The impairment test for goodwill is based on a calculation of the value in use. Goodwill is attributable to the activities of ProfilGruppen Extrusions AB, which is also the cash-generating unit tested. A cash flow statement has been used as the basis for the valuation and the first three years are based on the budget and strategic plans, which are adopted by management. The margin is expected to improve as a result of increased demand and measures to improve efficiency. The cash flows forecast after the first three years are based on an annual growth rate of 2.0 per cent (2.0), which in turn is based on the expected rate of GDP growth, which the market for extrusions normally follows. The new present value of forecast cash flows has been estimated using a discount rate of 11.63 per cent before tax (11.95), which has been calculated using a weighted average cost of capital. A sensitivity analysis of the impairment test has been made, showing that reasonable changes in the discount rate, weighted average cost of capital, rate of growth and gross margin calculation parameters do not result in an impairment loss.

The Group possesses machinery held through finance lease contracts with a carrying amount of MSEK 9.6 (11.3).

The Group's accumulated cost includes capitalised interest of MSEK 3.1 (3.1). No interest has been capitalised during this year or the previous year. Equipment belonging to the parent company refers to land equipment and permanent equipment.

The cost of the non-current assets that are fully depreciated but are still used in the business is MSEK 282.9 (260.1). As of 2017-12-31 there were contractual commitments to acquire property, plant and equipment of MSEK 4.9.

Administrative expenses	0.1	0.1	0.0	0.0
	37.2	35.0	3.2	3.1

12 FINANCIAL FIXED ASSETS

That portion of financial fixed assets which in the previous year referred to a lease of a property was divested during the year. The Group is thus no longer a lessor.

13 INVENTORIES

	Group	
	2017	2016
Raw materials and consumables	64.7	44.5
Work in progress	84.0	75.3
Finished products and goods for resale	32.5	26.5
	181.2	146.3

No portion of inventories has been measured at net realisable value. In the previous year, an impairment loss of MSEK 0.9 on inventories of consumables was recognised due to obsolescence. No impairment losses were recognised in 2017.

14 TRADE RECEIVABLES

Trade receivables are reported as net following deductions for doubtful receivables. Doubtful receivables are assessed individually and provisions of MSEK 0.1 (0.0) were made during the year for feared bad debt losses.

Realised bad debts amounted to MSEK 0.3 (0.2) and arose in connection with insolvency affecting customers.

For other information on customer credits, see Note 19.

15 EQUITY

Specification of reserves	2017	2016
Hedging reserve, opening balance	-3.9	-1.9
Cash flow hedges	0.5	-1.8
Reversal of cash flow hedges through profit or loss	0.1	-0.6
Tax attributable to hedges for the year	-0.1	0.4

Translation reserve, opening balance	0.2	0.0
Translation differences for the year	0.0	0.2
Translation reserve, closing balance	0.2	0.2
Total reserves	-3.2	-3.7

Share capital and votes

All shares have a fair value of SEK 5 per share. All shares are fully paid up. All existing shares are series B shares and have equal rights to a share in the company's assets and profits. During the year, there has been no change in the number of shares, which has remained at 7,398,775.

First refusal and conversion

There is no pre-emption clause in the articles of association.

Other paid-up capital

This item refers to equity that has been put up by the owners. This includes a portion of share premium reserves transferred to the statutory reserve as at 31 December 2005. Any future transfers to the share premium reserves will also be accounted for as paid-up capital.

Translation reserve

The translation reserve includes all exchange rate differences that arise during translation of financial statements from foreign operations which have prepared their statements in a currency other than that used in the Group's financial statements. The parent company and Group present their financial statements in Swedish kronor.

Hedging reserve

The hedging reserve contains the effective share of the accumulated net change in fair value of a cash flow hedging instrument attributable to hedging transactions that have not yet occurred.

Own shares and repurchases

No individual shares are owned by the company itself or its subsidiaries and the repurchase of individual shares is currently not relevant. There are no programmes of convertibles or options that involve the dilution of share capital.

Dividend

After the closing day, the Board has proposed a dividend for the 2017 financial year of SEK 4.50 per share, equivalent to MSEK 33.3. The calculated average number of shares in 2017 is 7,398,775 (7,398,775). The dividend is subject to approval by the Annual General Meeting on 17 April 2018. During the year, MSEK 22.2 in dividends were paid to the shareholders.

It is proposed that the available profits be appropriated as follows:

Dividend to shareholders SEK 4.50 * 7,398,775 shares	SEK 33,294,488
To be carried forward	SEK 88,843,236

Total profits according to balance sheet

SEK 122,137,723

Parent company

Restricted funds

Restricted funds refers to share capital and other restricted equity. Restricted funds are not available for dividend payment.

Non-restricted equity

The balanced profit is formed by the preceding year's non-restricted equity after any dividend has been paid. Profit brought forward, together with the profit for the year, make up the total non-restricted equity, i.e. the sum available for dividends to shareholders.

16 EARNINGS PER SHARE

The calculation of earnings per share is based on the consolidated profit/loss for the year, attributable to the parent company's shareholders, amounting to MSEK 73.0 (48.5) and a weighted average number of shares in 2017 amounting to 7,398,775 (7,398,775), which is calculated in accordance with IAS 33. There is no dilution.

17 INTEREST-BEARING LIABILITIES

	Group			
	Long-term		Current	
Interest-bearing liabilities	2017	2016	2017	2016
Bank loans	50.4	38.5	27.2	35.2
Bank overdraft facilities	-	-	18.8	0.0
Finance lease liabilities	0.6	4.1	3.7	4.3
	51.0	42.6	49.7	39.5

The parent company's liabilities to credit institutions comprise bank loans which mature within one year of the balance sheet date and drawn overdraft facilities.

That portion of the bank loans which is payable within twelve months from the balance sheet date is classified as current. The lender agreement contains key performance indicators that the company must meet, see Note 19. All interest-bearing liabilities are in Swedish kronor.

	Group	
Finance lease liabilities, due dates	2017	2016
Within one year	3.7	4.3
Between one and five years	0.6	4.1
More than five years	0.0	0.0
	4.3	8.4

The Group's finance lease payments amounted to MSEK 4.4 (4.2) during the year.

Other accrued expenses	7.6	8.1	0.3	0.3
	90.9	66.3	1.0	0.9

19 FINANCIAL INSTRUMENTS

The Group's financial instruments include bank loans, trade payables, finance leases and derivatives, which may constitute a liability or asset depending on the fair value of the instrument. The purpose of the liabilities is to fund the Group's operations. The Group's financial instruments also include assets in the form of trade receivables and cash and cash equivalents generated in the operations. The Group's derivatives may also constitute assets at the closing date.

As a result of its activities, the Group is exposed to various types of financial risk. Financial risk refers to fluctuations in the company's profit and cash flow as a result of changes in exchange rates, interest rates, raw material prices and refinancing and credit risks.

The company's Board of Directors examines and approves policies for handling these risks as described below. The Group's central finance department is responsible for handling financial transactions and risks in accordance with established policies.

Currency risks

Currency risks primarily arise when the Group sells products on export. Sales in foreign currencies represent about 40 per cent of all revenue. The currency in which the greatest share of export sales is done is EUR, but since raw materials are in part purchased in EUR, exposure is considerably reduced.

Under ProfilGruppen's currency policy, 50-70 per cent of the expected net inflow in each currency over the next six to eighteen months should be hedged. Hedge accounting is used for the forward exchange contracts, and during the year, no (no) amounts for ineffective hedges have been recognised in the income statement. The effects of the forward contracts in the income statement can be found on the revenue line, MSEK -3.3 (-1.5), and the financial expenses line, MSEK 0.0 (0.0).

Receivables in a foreign currency amounted as of 31 December to MSEK 49.7 (41.7) and liabilities in a foreign currency to MSEK 22.1 (16.8). Of the liabilities in a foreign currency, none (none) are interest-bearing, see Note 17.

The transaction exposure below is based on an estimated payment surplus 12 months ahead from 31 December 2017.

Currency	Estimated net inflow, MSEK	Hedged portion (per cent)	Average forward rate
EUR	150	78	SEK/EUR 9.68
DKK	20	77	SEK/DKK 1.28
NOK	18	50	NOK/SEK 1.01

Translation exposure associated with the Group's overseas sales companies, which consists of each company's equity and liabilities to the parent company, is marginal.

Where a net flow is unsecured, changes in exchange rates affect profit before tax and equity as per the following:

	Profit before tax, MSEK	Equity, MSEK
EUR Change +/- 10%	+/- 15	+/- 12
DKK Change +/- 10%	+/- 2	+/- 2
NOK Change +/- 10%	+/- 2	+/- 1

Interest rate risk

Interest rate risk refers to the risk that changes in market interest rates will have a negative impact on ProfilGruppen's earnings. To minimise this risk, the Group borrows at fixed rates and enters into interest rate swaps. During reporting, hedge accounting is applied when there is an effective link between a hedged loan and an interest rate swap. Interest rates for all non-current interest-bearing liabilities are hedged in one of the ways described above for the periods and levels specified in the following table.

Fixed interest year	Long-term interest-bearing liabilities, MSEK	Interest rate incl. margin (per cent)
2020	51.0	3.3

The parent company has no non-current interest-bearing liabilities

If interest rates in 2018 were to rise by one percentage point, this would increase the interest expense by MSEK 0.5 on a full-year basis.

Market risks

Market risks consist primarily of declining demand and changes in raw material prices. ProfilGruppen's production is characterised by a high proportion of fixed costs, meaning activities are highly volume-dependent. Small variations in demand thus have a relatively large impact on profit. Aluminium prices have historically shown significant mobility. The price risk that does exist is reduced by including raw material clauses in contracts with customers. There is a certain price risk in inventory, however. The raw material policy means that raw materials are mainly purchased in proportion to orders in hand. Raw material purchases for periods longer than six months are based on contracts with customers. Raw materials are purchased in Swedish krona or euro. Follow-ups and checks are performed by a raw materials group made up of representatives from the purchasing, finance and marketing organisations at management level.

Credit risks

Customer credits in ProfilGruppen must be handled in accordance with the Group's credit policy. The company's management is responsible for ensuring that the credit policy is familiar to all parties involved in the sales process and for it being adapted where necessary.

Credit assessments are made and credits are monitored by the Group's Credit Controller, and around 60 per cent (0) of the Group's annual sales are insured under a credit insurance policy. Decisions on exemptions from credit insurance are jointly taken by the CFO and the CEO each year.

Maximum exposure to credit risks as of 31 December 2017 amounts to MSEK 218.9 (156.3). The largest individual receivable amounts to 8 per cent (10) of the total credit risk. The distribution of the credit risk is shown in the following table.

Concentration of credit risk at 31 Dec 2017	Number of customers	Per cent of number of customers
Exposure < MSEK 1.0	360	88%
Exposure MSEK 1.0-5.0	41	10%
Exposure > MSEK 5	10	2%
	411	100%

Of the total amount of trade receivables, 1.6 per cent (2.9) refers to overdue receivables, of which 0.7 per cent (1.4) is more than 30 days overdue.

Liquidity risks

No significant liquidity risks are included in the company's financial instruments. The due dates for interest-bearing liabilities are reported in note 17. In addition to the Group's cash and cash equivalents, on the closing date there were unutilised credit facilities to a value of MSEK 112.2 (153.7).

The agreement with lenders contains key performance indicators that the company is required to meet. These had been met at 31 December 2017.

Other liabilities	11.3	7.7	11.3	7.7	Other financial liabilities

No reclassification between categories has been carried out during the year.

Forward contracts have been measured at observable market prices for currencies at the balance sheet date, i.e. in accordance with Level 2 under IFRS 13.

Valuation models or techniques for discounted cash flows are used to determine the rate for interest rate swaps. The discount rate used is a market-based rate for similar instruments on the closing date. The value thus agrees with Level 2 under IFRS 13.

Capital administration

The main goal of the Group's capital administration is to maintain a high credit rating and a well-balanced capital structure. In order to retain or change the capital structure, the Group can adjust the dividend to the shareholders, return capital to the shareholders or conduct a new issue.

The net debt/equity ratio is defined as interest-bearing liabilities and provisions less cash and cash equivalents in relation to equity. The net debt/equity ratio at the end of the year was 0.28 (0.33).

	Group	
	2017	2016
Interest-bearing liabilities	100.7	82.1
Interest-bearing provisions	17.0	17.8

23 ASSOCIATED RELATIONS AND RELATED-PARTY TRANSACTIONS

The parent company has associated relations which involve a decisive influence over its subsidiaries, see Note 21. For information on liabilities to and receivables from subsidiaries, see the parent company balance sheet. The parent company's revenue comprises revenues for services and rents, of which 99 per cent is earned from subsidiaries. These rents are determined based on market terms.

Of the total votes of ProfilGruppen AB, the Board members Bengt Stillström and Mats Egeholm control 28.4 per cent (28.4) and 10.5 per cent (10.5), respectively. The other Board members together control 0.05 per cent (0.04) of the votes. Senior executives control a total of 0.14 per cent (0.06) of the votes in ProfilGruppen AB.

For salaries and other remuneration, as well as costs and obligations related to pensions and similar benefits for the Board, CEO and other senior executives, see Note 4.

The undersigned affirm that the Group and annual accounts have been prepared in accordance with the IFRS international accounting standards as adopted by the EU and with generally accepted accounting principles and provide a fair representation of the Group's and the company's position and profits

and that the Group Directors' Report and the Directors' Report provide a fair summary of the development of the Group's and company's activities, position and profits and describe significant risks and factors of uncertainty that the companies that form part of the Group face.

Ernst & Young AB

Franz Lindström, Authorised Public Accountant

AUDITOR'S REPORT

To the general meeting of the shareholders of ProfilGruppen AB (publ), corporate identity number 556277-8943

REPORT ON THE ANNUAL ACCOUNTS AND CONSOLIDATED ACCOUNTS

Opinions

We have audited the annual accounts and consolidated accounts of ProfilGruppen AB (publ) for the year 2017. The annual accounts and consolidated accounts of the company are included on pages 8-27 in this document.

In our opinion, the annual accounts have been prepared in accordance with the Annual Accounts Act and present fairly, in all material respects, the financial position of the parent company as of 31 December 2017 and its financial performance and cash flow for the year then ended in accordance with the Annual Accounts Act. The consolidated accounts have been prepared in accordance with the Annual Accounts Act and present fairly, in all material respects, the financial position of the group as of 31 December 2017 and their financial performance and cash flow for the year then ended in accordance with International Financial Reporting Standards (IFRS), as adopted by the EU, and the Annual Accounts Act.

We therefore recommend that the general meeting of shareholders adopts the income statement and balance sheet for the parent company and the group. Our opinions in this report on the annual accounts and consolidated accounts are consistent with the content of the additional report that has been submitted to the parent company's audit committee in accordance with the Audit Regulation (537/2014) Article 11.

Basis for Opinions

We conducted our audit in accordance with International Standards on Auditing (ISA) and generally accepted auditing standards in Sweden. Our responsibilities under those standards are further described in the Auditor's Responsibilities section. We are independent of the parent company and the group in accordance with professional ethics for accountants in Sweden and have otherwise fulfilled our ethical responsibilities in accordance with these requirements. This includes that, based on the best of our knowledge and belief, no prohibited services referred to in the Audit Regulation (537/2014) Article 5.1 have been provided to the audited company or, where applicable, its parent company or its controlled companies within the EU.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinions.

Key Audit Matters

Key audit matters of the audit are those matters that, in our professional judgment, were of most significance in our audit of the annual accounts and consolidated accounts of the current period. These matters were addressed in the context of our audit of, and in forming our opinion thereon, the annual accounts and consolidated accounts as a whole, but we do not provide a separate opinion on these matters. For each matter below, our description of how our audit addressed the matter is provided in that context.

Inventory valuation

Description

Inventories amounts to 181,2 MSEK and represent a significant share of the Group's total assets. Inventories consist of both raw materials, products in progress and finished products. As shown in Note 1 in the annual report, inventories are valued at the lowest of historical cost and net realizable value. Inventory valuation is based on manually prepared calculations, in which there are elements of assessments by management that may affect the valuation significantly. There is also a risk of inven-

tory obsolescence due to price sensitivity in both raw materials and finished products, which requires assessments when determining the obsolescence allowance. The inventory valuation thus includes key estimates and assessments made by the company, see note 1. Overall, this means that inventories have been a key audit matter of the audit.

We have fulfilled the responsibilities described in the Auditor's responsibilities for the audit of the financial statements section of our report, including in relation to these matters. Accordingly, our audit included the performance of procedures designed to respond to our assessment of the risks of material misstatement of the financial statements. The results of our audit procedures, including the procedures performed to address the matters below, provide the basis for our audit opinion on the accompanying financial statements.

How our audit addressed this key audit matter

We have audited the company's calculations through test checks and analysis of significant parameters. We have also audited management's assessment of obsolescence through analysis of slow-moving products, analysis of gross profit margins and test checks of purchase and selling prices in accordance with contracts. We have audited the appropriateness of the disclosures in the annual report.

Other Information than the annual accounts and consolidated accounts

This document also contains other information than the annual accounts and consolidated accounts and is found on pages 1-7. The Board of Directors and the Managing Director are responsible for this other information.

Our opinion on the annual accounts and consolidated accounts does not cover this other information and we do not express any form of assurance conclusion regarding this other information.

In connection with our audit of the annual accounts and consolidated accounts, our responsibility is to read the information identified above and consider whether the information is materially inconsistent with the annual accounts and consolidated accounts. In this procedure we also take into account our knowledge otherwise obtained in the audit and assess whether the information otherwise appears to be materially misstated.

If we, based on the work performed concerning this information, conclude that there is a material misstatement of this other information, we are required to report that fact. We have nothing to report in this regard.

Responsibilities of the Board of Directors and the Managing Director

The Board of Directors and the Managing Director are responsible for the preparation of the annual accounts and consolidated accounts and that they give a fair presentation in accordance with the Annual Accounts Act and, concerning the consolidated accounts, in accordance with IFRS as adopted by the EU. The Board of Directors and the Managing Director are also responsible for such internal control as they determine is necessary to enable the preparation of annual accounts and consolidated accounts that are free from material misstatement, whether due to fraud or error.

In preparing the annual accounts and consolidated accounts, The Board of Directors and the Managing Director are responsible for the assessment of the company's and the group's ability to continue as a going concern. They disclose, as applicable, matters related to going concern and using the going concern basis of accounting. The going concern basis of accounting is however not applied if the Board of Directors and the Managing Director intends to liquidate the company, to cease operations, or has no realistic alternative but to do so.

The Audit Committee shall, without prejudice to the Board of Director's responsibilities and tasks in general, among other things oversee the company's financial reporting process.

Auditor's responsibility

Our objectives are to obtain reasonable assurance about whether the annual accounts and consolidated accounts as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinions. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with ISAs and generally accepted auditing standards in Sweden will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these annual accounts and consolidated accounts.

A further description of our responsibilities for the audit of the annual accounts and the consolidated accounts is located at Revisorsinspektionen's (the Swedish Inspectorate of Auditors) website at:

http://www.revisorsinspektionen.se/rn/showdocument/documents/rev_dok/revisors_ansvar.pdf. *This description forms part of our auditor's report.*

REPORT ON OTHER LEGAL AND REGULATORY REQUIREMENTS

Opinions

In addition to our audit of the annual accounts and consolidated accounts, we have also audited the administration of the Board of Directors and the Managing Director of Profilgruppen AB (publ) for the year 2017 and the proposed appropriations of the company's profit or loss.

We recommend to the general meeting of shareholders that the profit be appropriated (loss be dealt with) in accordance with the proposal in the statutory administration report and that the members of the Board of Directors and the Managing Director be discharged from liability for the financial year.

Basis for opinions

We conducted the audit in accordance with generally accepted auditing standards in Sweden. Our responsibilities under those standards are further described in the Auditor's Responsibilities section. We are independent of the parent company and the group in accordance with professional ethics for accountants in Sweden and have otherwise fulfilled our ethical responsibilities in accordance with these requirements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinions.

Responsibilities of the Board of Directors and the Managing Director

The Board of Directors is responsible for the proposal for appropriations of the company's profit or loss. At the proposal of a dividend, this includes an assessment

of whether the dividend is justifiable considering the requirements which the company's and the group's type of operations, size and risks place on the size of the parent company's and the group's equity, consolidation requirements, liquidity and position in general.

The Board of Directors is responsible for the company's organization and the administration of the company's affairs. This includes among other things continuous assessment of the company's and the group's financial situation and ensuring that the company's organization is designed so that the accounting, management of assets and the company's financial affairs otherwise are controlled in a reassuring manner. The Managing Director shall manage the ongoing administration according to the Board of Directors' guidelines and instructions and among other matters take measures that are necessary to fulfill the company's accounting in accordance with law and handle the management of assets in a reassuring manner.

Auditor's responsibility

Our objective concerning the audit of the administration, and thereby our opinion about discharge from liability, is to obtain audit evidence to assess with a reasonable degree of assurance whether any member of the Board of Directors or the Managing Director in any material respect:

- has undertaken any action or been guilty of any omission which can give rise to liability to the company, or
- in any other way has acted in contravention of the Companies Act, the Annual Accounts Act or the Articles of Association.

Our objective concerning the audit of the proposed appropriations of the company's profit or loss, and thereby our opinion about this, is to assess with reasonable degree of assurance whether the proposal is in accordance with the Companies Act.

Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with generally accepted auditing standards in Sweden will always detect actions or omissions that can give rise to liability to the company, or that the proposed appropriations of the company's profit or loss are not in accordance with the Companies Act.

A further description of our responsibilities for the audit of the administration is located at Revisorsinspektionen's (the Swedish Inspectorate of Auditors) website at: http://www.revisorsinspektionen.se/rn/showdocument/documents/rev_dok/revisors_ansvar.pdf.

This description forms part of our auditor's report.

Ernst & Young AB, Box 854, 391 28 Kalmar, was appointed auditor of Profilgruppen AB by the general meeting of the shareholders on the 25 April 2017 and has been the company's auditor since the 31 March 2007.

KALMAR 28 FEBRUARY, 2018
Ernst & Young AB

Franz Lindström, Authorized Public Accountant

CORPORATE GOVERNANCE REPORT FOR PROFILGRUPPEN 2017

ProfilGruppen is a Swedish public company, whose shares are listed on the Stockholm Stock Exchange's SmallCap list. Corporate governance at ProfilGruppen is therefore based on the Swedish Corporate Governance Code (the Code), the Companies Act, the Annual Accounts Act, the rules and regulations of the Stockholm Stock Exchange, the Articles of Association, adopted formal work plans, and other applicable laws and regulations.

DEVIATIONS FROM THE SWEDISH CORPORATE GOVERNANCE CODE

One deviation from the Code has been made. The deviation relates to the Nominating Committee and is explained under "Nominating Committee" below.

ANNUAL GENERAL MEETING 2017

The Annual General Meeting was held on 25 April 2017 in Åseda. The AGM was attended by shareholders, personally or by proxy, representing 61.8 per cent of the total number of votes in the company. The meeting was attended by the CEO, Per Thorsell, and the Group's management, the company's auditors and the Board of Directors. The Chairman of the Board, Kåre Wetterberg, was appointed to chair the meeting. The minutes from the meeting have been published on the company's website. It was resolved to re-elect Mats Egeholm, Bengt Stillström, Thomas Widstrand and Kåre Wetterberg while Monica Bellgran was elected as a new member of the Board. Kåre Wetterberg was also elected Chairman of the Board.

ANNUAL GENERAL MEETING 2018

The Annual General Meeting 2018 will be held on 17 April 2018 at 4 p.m. in Folkets Hus in Åseda. Shareholders wishing to submit proposals to the Nominating Committee may contact the Nominating Committee by e-mail at valberedningen@profilgruppen.se or by writing to Valberedningen, ProfilGruppen AB, Box 36, SE-364 21 Åseda, Sweden. Shareholders wishing to submit an issue for discussion at the AGM may do so by writing to the Chairman of ProfilGruppen at the above address or by sending an e-mail to styrelsen@profilgruppen.se. Information about the date, place and deadline for submission of proposals will be notified in connection with the interim report for the third quarter.

NOMINATING COMMITTEE

At the 2017 Annual General Meeting it was resolved that the Nominating Committee should consist of four members and to charge the Chairman of the Board with the task of contacting the three largest shareholders before the end of the third quarter and, in consultation with the same, appoint members who, along with the Chairman of the Board, will constitute the Nominating Committee. The nominating committee appoints a chairman from among its members.

In preparation for the Annual General Meeting 2018, representatives of the company's largest shareholders were contacted, in accordance with a resolution of a previous shareholders' meeting, and invited to appoint one member each to the Nominating Committee. The composition of the Nominating Committee was published on the company's website on 17 October 2017.

The Nominating Committee for the 2018 Annual General Meeting comprises

Lars Johansson, Shareholder, Chairman of the Nominating Committee	14.5%
Bengt Stillström, Ringvägen Venture AB	28.4%
Mats Egeholm, shareholder	7.2%
Kåre Wetterberg (Chairman of the Board)	

Under the Code, a majority of the members of the Nominating Committee must be independent in relation to the company and its management. At least one of the members must be independent in relation to the shareholder, or group of shareholders acting in concert in respect of the management of the company, which holds the largest share of votes. The Chairman of the Board or another Board member should not be chairman of the Nominating Committee. The company's major shareholders have appointed the Nominating Committee and its chairman based on what they believe is appropriate and are aware that this constitutes a

deviation from the Code in the sense that a majority of the members of the Nominating Committee are also Board members.

Since its appointment the Nominating Committee has held three meetings at which minutes have been taken. The members of the Committee have also had contacts with each other and with the members of the Board and have studied the Board's evaluation of its work.

BOARD COMPOSITION AND REMUNERATION

At ProfilGruppen the Board of Directors shall comprise at least three and not more than seven members elected by a general meeting of shareholders, as well as a maximum of three deputies elected by a general meeting of shareholders. At the 2017 Annual General Meeting, it was decided that the number of members should be five, with no deputies. In addition, the Board comprises two members and two deputies appointed by the employees.

The composition of the Board since the Annual General Meeting 2017 is presented on page 33. All Board members were independent in relation to the company in 2017. Bengt Stillström and Mats Egeholm are major shareholders of the company. The major shareholders are independent of each other.

As regards the composition of the Board, the Nominating Committee bases its proposals on the requirements for diversity and breadth in respect of expertise, experience, background and gender prescribed in the Code. These guidelines also serve as a diversity policy. The goal is to achieve a composition that is appropriate with regard to the company's activities, stage of development and other circumstances. In respect of the past year, the Nominating Committee stated that the representation of women on the Board was somewhat low but that there were no suitable female candidates among the company's major shareholders, adding that the gender breakdown among the independent candidates was even instead.

In accordance with decisions made at the AGM, the fee paid to Board members for the period until the next AGM amounts to a total of kSEK 965 (965). Fees are paid only to Board members elected by a general meeting of shareholders, as shown below. The Chairman of the Board has not received any remuneration in addition to his Directors' fees.

Board member	Role on Board	Remuneration
Kåre Wetterberg	Chairman	365,000
Monica Bellgran	Board member	150,000
Mats Egeholm	Board member	150,000
Bengt Stillström	Board member	150,000
Thomas Widstrand	Board member	150,000
Total fees		965,000

THE WORK OF THE BOARD OF DIRECTORS

Following the election of its members, the Board of Directors holds a constituent Board meeting, at which the formal work plan for the coming year is adopted. The Board's mandate to the CEO is formulated in a set of instructions for the CEO.

Since the 2017 Annual General Meeting, the Board has met on seven occasions. Attendance at these is shown in the table below. Key issues at these meetings are drawn from the formal work plan. The following items have been dealt with during the year:

April	inaugural meeting
July	strategy discussions including feasibility study on capacity increase
July	interim report, second quarter
September	investments, credit policy, structural issues
October	interim report for the third quarter, evaluation of the work of the Board, forecast for 2017 and Audit Committee matters
December	adoption of budget
February 2018	year-end report, closing of the books, annual report and auditor's report
April 2018	coming meeting to address matters to include the interim report for the first quarter

Board member attendance and number of meetings

Board	Board meetings
Kåre Wetterberg	7
Mats Egeholm	7
Monica Bellgran	6
Thomas Widstrand	6
Bengt Stillström	7
Maria Wennberg ¹	7
Kurt Nilsson ¹	7
Richard Nylin ²	7
Emelie Bergström ²	7
Total number of meetings since 2017 AGM	7

1) Appointed by the employees, ordinary

2) Appointed by the employees, deputy

The company's CEO and CFO, who is also the Board's secretary, were present at these meetings.

Members of the Board of Directors receive monthly reports from the management team on the company's current financial and operational development. A procedure for annual evaluation of the work of the Board exists. In 2017, all Board members completed written questionnaires covering the work of the Board in general, their own performance and the work of the Board Chairman. The Chairman has not been involved in compiling the questionnaires concerning his work. The evaluation serves as a basis for an action plan for improvements and contributes to the work of the Nominating Committee.

REMUNERATION COMMITTEE AND AUDIT COMMITTEE

Since the constituent Board meeting in 2017, the Audit Committee consists of all members of the Board. The actions taken to quality-assure the company's financial statements and audits, contacts with the auditors and internal control have been monitored and have thus been evaluated by all members of the Board. The work

of the external auditors has been evaluated and the Board has made a recommendation to the Nominating Committee ahead of the appointment of auditors at the 2018 Annual General Meeting.

At the constituent meeting, the Board appointed a Remuneration Committee consisting of Thomas Widstrand, Mats Egeholm and Kåre Wetterberg. Guidelines and levels of remuneration for the management team are drafted by the Remuneration Committee and adopted by the Board. The committee also produces a draft set of principles for remuneration of senior executives, which is submitted for adoption by the Annual General Meeting. Neither the CEO nor the HR Manager are members of the committee, but are invited to attend meetings when their presence is appropriate. Since the Annual General Meeting 2017, the committee has held two meetings, which were attended by all members of the committee.

Salary for management in 2017 consisted of one fixed element and one variable element. The size of variable remuneration has been linked to the consolidated operating profit. For the financial year 2017, variable remuneration of SEK 1,691,400 (1,452,650) was paid. The principles for remuneration define a ceiling for variable pay of 25 per cent of the fixed salary.

CEO AND SENIOR MANAGEMENT

ProfilGruppen's senior management comprises the CEO and five different Function Managers. The composition of the management team is presented on page 34.

Senior management is responsible for planning, managing and following up on day-to-day operations. The CEO runs the business in accordance with the framework established by the Board, which includes a set of work instructions. The CEO is responsible for keeping the Board informed on operations and for ensuring that the Board has the necessary data for decisions.

The senior management team holds regular management meetings. These meetings focus on the Group's strategic and operational progress and on assessments of results.

AUDITORS

At the 2017 Annual General Meeting, the registered accountancy company Ernst & Young AB was appointed as auditor for the period until the 2018 AGM. At the same meeting Franz Lindström was appointed chief auditor.

For the purpose of examining the Board of Directors' management of the company and meeting the Board's need for information, the auditors have since the 2017 AGM participated in two meetings with the Board. Apart from the audit and consultancy tasks on auditing and tax issues, the auditors have no other tasks at the ProfilGruppen group. Information on remuneration for the auditors can be found in Note 5 to the financial statements.

ARTICLES OF ASSOCIATION

The Articles of Association are available on the company's website and can only be amended by a resolution of a general shareholders' meeting.

SHARE INFORMATION

Each share in ProfilGruppen corresponds to one vote. Information on major shareholders is found in the Directors' Report.

THE BOARD'S REPORT ON INTERNAL CONTROL FOR 2017

The Board is responsible for the company having good internal control. Responsibility for maintaining an effective control environment and the ongoing work on internal control and risk management has been delegated to the Group's management team. The five main activities included in ProfilGruppen's work on internal control are creation of a control environment, risk assessment, control activities, information and communication, and follow-up.

CONTROL ENVIRONMENT

An important element of the Board's work is creating a relevant and effective control environment. The Board's formal work plan and instructions for the company's CEO aim to ensure clear allocation of roles and division of responsibility, which promotes effective management of the operation's risks.

The Board has also established a number of governing documents that are important for internal control. Examples of such documents include policies for the granting of credit, raw material purchases, currency hedging, remuneration and information security.

The Board evaluates the company's operational performance and results through monthly reports submitted by management, assessing economic outcomes and key performance indicators against targets.

ProfilGruppen has a simple legal and operational structure, which facilitates clarification of division of responsibility and swift action in the event of changed conditions. A clear delegation of responsibilities and authority form the basis for the Board's work to ensure compliance with internal control principles and applicable laws and regulations. All decisions concerning, for example, the overall strategy, acquisitions, major investments and general financial issues are prepared by management and made by the Board.

RISK ASSESSMENT

The company's CFO is responsible for annually assessing the risks in the financial reporting presented to the Board. An annual general risk assessment is a part of the Board's strategy work. The assessment and management of the most significant risks for ProfilGruppen are described in greater detail in the risk section of the annual report.

CONTROL ACTIVITIES

The principal means of control are the detailed financial follow-up reports that are compiled each month. Work to prepare these includes analysis of deviations from, among other things, set goals and budgets. In addition to these general quality checks, there are daily checks of authorisations, access rights for IT systems and similar.

INFORMATION AND COMMUNICATION

The governing documents are distributed via the intranet and by other means. There are guidelines for external communication which ensure that ProfilGruppen meets the stringent requirements concerning provision of accurate information to the financial markets.

FOLLOW-UP

The Board has the task of evaluating how the company's internal control system functions, as well as keeping up to date on important evaluations and assessments that provide the basis for the financial statements. The company's CFO is responsible for regular follow-up of the internal control and reports her findings to the Board at least once a year. The basis for financial governance and control is produced by the company's finance department.

At least once a year the Board meets with the external auditors to discuss the auditors' assessment of the company's internal control. The auditors report their findings to the Board through regular reviews and a year-end audit of the third quarter's interim report and the annual accounts. In view of the above, the Board has determined that there is currently no need for a separate internal audit or review function.

Åseda, 28 February 2018
The Board of ProfilGruppen AB

AUDITOR'S STATEMENT ON THE CORPORATE GOVERNANCE REPORT

To the general shareholders' meeting of ProfilGruppen AB (publ.) Corp. ID 556277-8943

Assignment and allocation of responsibility

The Board of Directors is responsible for the corporate governance report for 2017, which is found on pages 30-32, and for ensuring this is prepared in accordance with the Annual Accounts Act.

Focus and scope of the audit

We have conducted our audit in accordance with FAR's statement RevU 16. The auditor's examination of the corporate governance report.

Our review of the Corporate Governance Report has a different focus and significantly narrower scope than a full audit conducted in accordance with the International Standards on Auditing and generally accepted auditing standards in Sweden. We believe our review provides a sufficient basis for our opinion.

Opinion

A corporate governance report has been prepared. Disclosures pursuant to Ch. 6 § 6 second para. items 2-6 of

the Annual Accounts Act and Ch. 7 § 31 second para. of the same Act are consistent with the annual accounts and consolidated financial statements and comply with the Annual Accounts Act.

KALMAR, 28 FEBRUARY 2018

FINANCIAL TERMS

TERM	DESCRIPTION	REASON FOR USE
Proportion of risk-bearing capital	Equity and deferred tax liabilities expressed as a percentage of the balance sheet total.	Relevant from a credit perspective, shows the ability to sustain losses.
Return on equity	Profit/loss for the year expressed as a percentage of average equity during the period. In reporting interim periods, the results are extrapolated to cover a twelve-month period.	Relevant from a shareholder perspective, as it reflects the return on the shareholders' capital for the period.
Return on capital employed	Earnings before tax and financial expense as a percentage of average capital employed for the period. See definition of capital employed below.	Relevant for investors and lenders, as it shows the return on capital that requires a return. Used for optimising capital allocation.
Balance sheet total	The value of all assets, such as property, plant and equipment, inventories, trade receivables, and cash and cash equivalents.	Relevant for giving stakeholders a simple means of monitoring changes in consolidated total assets.
Equity per share	Equity excluding non-controlling interests divided by the number of shares.	A relevant measure for investors which shows the size of the debt to the owners that is related to each share.
Investments	Non-current assets acquired during the period.	Relevant for showing the overall size of the investments that are made to maintain the existing capacity and generate growth.
Capital turnover rate	Revenue divided by average capital employed.	Relevant for assessing how quickly capital is used on average. A type of measure of capital efficiency.
Cash flow from current operations	Cash flow from operating activities excluding financing and investments.	Relevant for enabling investors to monitor the capacity of the company's operating activities to generate cash flow for financing new investments, repayments of debt and dividends, and for assessing the need for new financing.
Cash flow per share	Cash flow from operating activities divided by average number of shares.	Relevant for relating cash-generating capacity to the number of shares.
Liquidity reserves	Cash and bank balances and non-utilised credit commitments from banks at end of period.	Relevant for assessing the company's ability to finance its future operations and variations in monetary flows through the company.
Net debt/EBITDA	Net interest-bearing debt divided by earnings before depreciation, amortisation and impairment. For interim periods, rolling 12 month earnings are used.	Relevant for assessing the company's ability to repay loans, which is of interest to lenders and investors.
Net interest-bearing debt	Interest-bearing liabilities and interest-bearing provisions (provisions for pensions) less cash and cash equivalents and interest-bearing assets.	Relevant for assessing the total interest-bearing debt used by the company.
Net debt/equity ratio	Net interest-bearing debt divided by equity.	Relevant for assessing the capital structure, the breakdown between equity and debt capital.
Profit/loss before depreciation, amortisation and impairment (EBITDA)	Operating profit/loss before scheduled depreciation and impairment losses.	Relevant as a measure of the company's operational capacity to generate cash flow before capital tied up in operating activities and financial flows.
Earnings per share	Profit or loss for the period excluding earnings attributable to non-controlling interests divided by average number of shares.	Relevant for enabling investors to assess the return on and valuation of the shares.
Profit margin	Profit/loss before tax expressed as a percentage of revenue.	Relevant for assessing how large a share of revenue is retained as profits. Can also be used for comparisons between companies. The measure also shows the company's ability to sustain negative deviations.
Interest coverage ratio	Profit/loss before tax and financial expense divided by financial expense.	Relevant for lenders as a measure of the company's ability to meet interest expenses.
Operating margin	Operating profit/loss as a percentage of revenue.	Relevant for assessing how large a share of revenue is retained as profits from the company's operating activities. Can also be used for comparisons between companies.
Operating profit	Profit/loss before tax and financial items.	Relevant as a measure of the earnings generated by the company's operating activities.
Equity ratio	Equity expressed as a percentage of total assets.	Relevant as a measure of current self-financing, as it shows how large a portion of the assets is equity-funded.
Net asset value per share	See equity per share.	
Capital employed	Equity and interest-bearing liabilities.	Relevant for showing the share of total capital that is used in the operating activities, and is one component for measuring the operational return.

The key performance indicators are based on figures for the Group, including non-controlling interests, except for earnings per share and net asset value per share.
