Comments by the CEO

The third quarter saw the NAV/share edge up by 1.2%. Over 12 months, the NAV/share has increased by 5.9%, including the FY 2022 dividend paid during the previous quarter.

Just as during the first half of 2023, the macro-economic backdrop remained challenging during the third quarter, affecting both general investor sentiment and private equity market activity. In the Nordics, private equity deal volume continued to be lower than during preceding years, notably due to tighter financing conditions.

NAXS's portfolio nevertheless saw 3 new acquisitions and 1 exit by underlying funds during the third quarter.

Finally, you will have noticed the new reporting format implemented in this interim report, whereby we aim to make our reporting both more informative and easier to read.

Notes

Note 1. Accounting principles

The condensed consolidated financial statements have been established in accordance with the International Financial Reporting Standards (IFRS), as recognized by the EU. This report has been prepared in accordance with IAS 34 Interim Financial Reporting and the Swedish Annual Reporting legislation.

The accounting principles applied in this report are described in the Annual Report 2022 under notes to the financial reports.

The company has reassessed whether the functional currency of the Danish and Norwegian subsidiary should be DKK and NOK or SEK, respectively, i.e. the same as that of the parent company. Previously, the financial statements of the foreign subsidiaries were recalculated to SEK and the translation difference was reported in other comprehensive income. As of

December 31, 2022, the assessment has been modified in accordance with IAS 21.11(a). This means that the functional currency of the subsidiaries is now considered to be the same as that of the parent company and is reported in the income statement in the item changes in value. Earned translation difference has been transferred to retained earnings. The comparison year has been adjusted accordingly.

The new and amended IFRS standards and interpretations applied from 2023 have not and are not expected to have any significant effect on the Group's financial results and position.

The Parent Company follows the Swedish Annual Reporting legislation and the Swedish Financial Reporting Board RFR 2 for legal entities, which provides that the IFRS principles shall apply.

	46,056	-	660,801	706,857

Disclosure of fair value measurement by level in the following fair value hierarchy:

Level 1 - Quoted prices (unadjusted) in active markets for identical assets or liabilities

Level 2 - Observable data for the asset or liabilities other than quoted prices included in tier 1, either directly (i.e. as price quotations) or indirectly (i.e. derived from price quotations).

Level 3 - Data for the asset or liability that is not based on observable market data (i.e. unobservable data).

NAXS's private equity fund investments are classified in Level 3. The Company's specific valuation techniques and critical estimates are reported under accounting policies. In level 3, unlisted units in investment funds are reported. The company's holdings in unlisted investment funds (so-called Private equity funds). The funds are valued using an

alternative valuation method for which observable input data is not available. For private equity funds, valuation is based on rates and unit values received from the fund manager. The valuation follows accepted valuation principles for calculating fair values. The fair value is calculated by the underlying assets being market-valued and priced by the fund administrator. If NAXS assesses that the fund administrator's valuation has not sufficiently taken into account factors that affect the value of the underlying holdings or if the valuation made is deemed to deviate significantly from the accounting principles for valuation at fair value, an adjustment is made to the value.

For those instruments in the balance sheet that are not measured at fair value, NAXS believe that the carrying amount is a reasonable approximation to fair value for these instruments.

Definitions and Alternative performance measures

NAXS applies the guidelines issued by the European Securities and Markets Authority (ESMA) for alternative key ratios. Alternative key figures are financial measures of historical or future earnings trend, financial position, financial results, or cash

flows that are not defined or specified in the applicable rules for financial reporting.

Alternative key ratios are stated when, in their context, they provide clearer or more in-depth

information than the measures defined in applicable financial reporting rules. The alternative key figures are derived from the consolidated financial statements. Alternative key ratios are stated when, in their context, they supplement the measures defined in IFRS. The starting point for the provided alternative key figures is that they are used by management to

assess the financial development and are thus considered to provide valuable information to analysts and other stakeholders. NAXS regularly uses alternative key ratios as a complement to those key ratios that generally constitute good accounting practice.

Review report

NAXS AB (publ), corporate identity number 556712-2972

Introduction

We have reviewed the condensed interim report for NAXS AB (publ) as at September 30, 2023 and for the nine months period then ended. The Board of Directors and the Managing Director are responsible for the preparation and presentation of this interim report in accordance with IAS 34 and the Swedish Annual Accounts Act. Our responsibility is to express a conclusion on this interim report based on our review.

Scope of review

We conducted our review in accordance with the International Standard on Review Engagements, ISRE 2410 *Review of Interim Financial Statements Performed by the Independent Auditor of the Entity*. A review consists of making inquiries, primarily of persons responsible for financial and accounting matters, and applying analytical and other review procedures. A review is substantially less in scope than an audit conducted in accordance with International Standards on Auditing and other generally accepted auditing standards in Sweden. The procedures performed in a review do not enable us to obtain assurance that we would become aware of all significant matters that might be identified in an audit. Accordingly, we do not express an audit opinion.

Conclusion

Based on our review, nothing has come to our attention that causes us to believe that the interim report is not prepared, in all material respects, in accordance with IAS 34 and the Swedish Annual Accounts Act regarding the Group, and in accordance with the Swedish Annual Accounts Act regarding the Parent Company.
