

# NOMOS GLASHÜTTE

At home anywhere in the world: The new Club Sport neomatik Worldtimer from NOMOS Glashütte.

WATCHES AND WONDERS 2025

## Worldtime, reimagined

Club Sport neomatik Worldtimer from NOMOS Glashütte combines the robust elegance of Club Sport with a worldtime function for the first time. A new watch for global citizens and frequent travelers.

GLASHÜTTE/GENEVA, APRIL 1, 2025. At this year's Watches and Wonders, NOMOS Glashütte is presenting Club Sport neomatik Worldtimer. A new worldtime function makes this version of Club Sport a true “go anywhere, do anything” timepiece.

Whether you're working with colleagues in different time zones, calling with family around the world, or traveling—this is a worldtime watch designed with well-connected and cosmopolitan people in mind.

Thinner than a passport

The new proprietary caliber DUW 3202 is at the heart of the watch: a worldtime movement with the complication fully integrated into the neomatik caliber. At 4.8 millimeters, the

movement is thinner than a passport—and at 9.9 millimeters, the watch is one of the world's thinnest timepieces with a worldtime function.

Without compromising the brand's characteristic straightforward elegance, the case is water resistant to 10 atm, making the watch a robust companion for any occasion.

Club Sport neomatik Worldtimer will be available from April 1 in two standard versions: one with a deep blue dial featuring a sunburst finish for classic sportiness, and the other in silver with a rhodium-plated dial, also with a sunburst finish, and a day-night indication in red and blue.

NOMOS Glashütte will also be presenting six limited editions, each limited to 175 pieces, in striking colorways—more information to follow!

Come and visit us at Watches and Wonders in Geneva from 1st April 2025, Hall 2, La Mezzanine or contact us, we are always here for you.

Yours sincerely,  
Ines Hatzmannsberger

Unveiled in Switzerland, born in Germany, and at home all over the world: Club Sport neomatik Worldtimer from NOMOS Glashütte.

Club Sport neomatik Worldtimer from NOMOS Glashütte is a robust worldtime watch that is water resistant to 10 atm and measures just 9.9 millimeters in height.

A worldtimer with sporty details: an easy-to-read display, color accents, Superluminova, water resistant to 100 meters, and a screw-down crown. Club Sport neomatik Worldtimer silver from NOMOS Glashütte.

The new DUW 3202 caliber from NOMOS Glashütte is the German manufacturer's third neomatik caliber. It is unusually thin and highly efficient. The self-winding movement with worldtime complication measures just 4.8 millimeters in height, has a 42-hour power reserve, and features the NOMOS swing system.

## About NOMOS Glashütte

NOMOS Glashütte, founded in 1990, stands for independent watchmaking from Germany with a clear, timeless design. With thirteen in-house movements and numerous awards, the company is one of the leading brands in mechanical watchmaking. NOMOS watches are manufactured according to strict quality standards in Glashütte.
