

NOMOS GLASHÜTTE

Volcano is the name of one of the six Club Sport neomatik Worldtimer limited editions. This model from NOMOS Glashütte adorns wrists with deep volcanic hues, an anthracite dial, and lava-colored accents.

Style and understatement from Glashütte

NOMOS Glashütte offers a new take on the worldtimer: Club Sport neomatik Worldtimer is the epitome of watchmaking precision—as well as understatement, style, and color. The limited-edition Volcano with its anthracite dial is an elegant example.

Timeless design and superior craftsmanship, refined colors and fine mechanics: all these attributes define NOMOS Glashütte. The new release, Club Sport neomatik Worldtimer, is also an embodiment of these qualities. The guiding design principle is always: *understated, not overstated*.

This watch is both a tool and an accessory. It is unassuming, yet exudes high quality and style—in the spirit of *quiet luxury*.

Alongside two collection models in silver and blue, NOMOS now also presents six limited editions of the worldtimer in unique colorways. Today we introduce Volcano, a watch with a bold, dark color scheme inspired by volcanic rock.

NOMOS GLASHÜTTE

Sedcard Club Sport neomatik Worldtimer Volcano
