

# Alleima in partnership with Bångbro Strip Steel in Sweden

Alleima is pleased to have entered a new distributor partnership with Bångbro Strip Steel. Through the partnership, Bångbro will process, sell and distribute, Alleima's premium strip steels to ensure even better local access to high-quality strip steel on the Swedish market.

Bångbro Strip Steel, part of Scanstrip Group, and based in Kopparberg in Sweden is a distributor of cold-rolled strip steel has a long-standing reputation for its expertise, with a wide range of carbon steel, stainless steel, and special steel grades — available directly from its efficient steel service center. With a large warehouse, modern processing equipment, and deep technical knowledge, Bångbro Strip Steel is a trusted partner for Alleima, a leading global manufacturer of advanced steels and special alloys.

Alleima brings to the partnership a long history of metallurgical expertise and depth of know-how. Its comprehensive steel portfolio includes ten premium knife steel grades with the latest generation Damascus steel - Damax, Austenitic and Carbon Spring steels, Precipitation Hardening steels, Nickel alloys and an extensive range of hardened and tempered products.

The partnership enables local stockholding, faster delivery times, and direct access to Alleima's wide portfolio of high-performance precision strip steels.

"We are excited to welcome Bångbro Strip Steel AB as an official distributor of Alleima's strip steel products in Sweden. Their strong local presence, technical expertise, and commitment to quality and sustainability make them an ideal partner to support our customers and grow our market presence," says Roberto Torresani, Sales director at Alleima.

With this partnership, Alleima continues to expand its global distributor network, making high-performance strip steel more accessible and supporting customers with both technical expertise and reliable local deliveries.

"We are very happy to formalize this partnership with Alleima. We have known Alleima for a long time through our shared presence in the strip steel market. Their outstanding quality, long history, and deep expertise are well recognized. By combining Alleima's strengths with our technical know-how, service, and flexibility, we look forward to offering even more value to our customers," says Peter Möller, Managing Director at Bångbro Strip Steel.

**About Alleima**

Alleima, is a global manufacturer of high value-added products in advanced stainless steels and special alloys as well as solutions for industrial heating. Based on long-term customer partnerships and leading materials technology, we develop products for the most demanding applications and industries. Our offering includes products like seamless steel tubes for the energy, chemical and aerospace industries, precision strip steel for white goods compressors, air conditioners and knife applications, based on more than 900 active alloy recipes. It also includes ultra-fine wires for medical and micro-electronic devices, industrial electric heating technology and coated strip steel for fuel cell technology for cars, trucks, and hydrogen production. Our fully integrated value chain, from R&D to end-product, ensures industry-leading technology, quality, sustainability, and circularity. Alleima, with headquarter in Sandviken, Sweden, had approximately 6,500 employees and revenues of about 20 billion SEK in about 80 countries in 2024. The Alleima share was listed on Nasdaq Stockholm's Large Cap list on August 31, 2022 under the ticker 'ALLEI'. Learn more at [www.alleima.com](http://www.alleima.com).
