

Exide supports LIQUI MOLY Dynavolt Intact GP Team's Moto2 championship bid

- **Exide reiterates support of LIQUI MOLY Dynavolt Intact GP Team**
- **LIQUI MOLY Dynavolt Intact GP Team runner-up in both rider and championship standings in 2025**
- **Manuel González and Senna Agius poised for season opener in Thailand**

Gennevilliers, France (12/02/2026) – Exide Technologies (www.exidegroup.com) - With Exide Technologies by its side once more, the LIQUI MOLY Dynavolt Intact GP Team will be challenging for both the riders and teams' championships in 2026 after a remarkable and hard-fought 2025 season.

Since its founding in 2012, the Intact GP team has been inspiring the motorsport world with passion, precision and a commitment to sustainable success. Together with strong partners, the team has grown into a 30-strong international squad featuring four riders from three nations, united by the drive to fight for podiums and titles.

After reaffirming their partnership with an extended three-year deal in 2025, which saw the Exide brand logo appear prominently on both riders' bikes, the leading provider of innovative and sustainable battery storage solutions watched with awe and pride as Manuel González battled intensely for his maiden title. After finished third in 2024, runner-up in 2025, Exide is hopeful that the Spanish rider can mount another championship challenge.

Senna Agius remains Manuel's team-mate, completing the LIQUI MOLY Dynavolt Intact GP Team lineup. The Australian won two races and earned another two podiums in 2025, cementing his strong reputation in Moto2.

With two race winners in the LIQUI MOLY Dynavolt Intact GP Team, it boasts one of the strongest rider lineups on the grid as it prepares for the season opener in Thailand at the Chang International Circuit on Sunday 1 March.

Alain Lez, Senior Business Director Automotive Aftermarket at Exide Technologies, said: "This season promises to offer plenty of challenges and excitement. After a strong 2025 season with many highlights and celebrations, Exide is looking forward to returning to the track and supporting our partners at the LIQUI MOLY Dynavolt Intact GP Team as they continue striving for the championship."

Once again, the partnership will highlight Exide's full range of Motorbike & Sport batteries, including Exide Li-Ion, GEL, AGM Ready, AGM and Conventional models. Each is engineered to meet the unique needs of different motorcycles and riding styles.

To further promote motorcycle awareness, just as last season, Exide will organize ticket raffles at several Aftermarket events, where visitors can participate in battery know-how quizzes for a chance to win race tickets. Last year's lucky winners are already looking forward to attending the races in the upcoming season.
