Cassandra Oil AB (publ)
Sjöhagsvägen 14
SE-721 32 Västerås
www.cassandraoil.com

Update, Denmark and Estonia.

Denmark.

Cassandra's partner in Denmark, Reaktor ApS has been granted the awaited environmental permit from Halsnäs Municipality for the installation of a CASO reactor in Frederiksværk in Denmark. This means that we can now jointly proceed with the next steps for the project in Denmark.

Estonia.

Cassandra Oil's partner in Estonia, BF Holding OU's application for EU funding contribution has been granted by the EU LIFE in the first instance. The contribution of € 2,956,781, covers 50% of the total investment in a recycling plant with one CASO reactor in Estonia

This is Cassandra Oil AB

Cassandra Oil is a Swedish company which, with the help of new technologies, recovers oil and gas from hydrocarbon rich waste materials, such as used tires, plastic waste, oil sludge, waste oil and, eventually, oil sands, oil shale and electronic scrap. Cassandra Oil's share is listed at Mangold, Stockholm with the short name CASO. The number of shareholders is about 7400.
