

# Lyvia Group acquires Werkstap, strengthening their social development and inclusive workforce solutions

September 8th, 2025: Lyvia Group, the European tech and software solutions group, has acquired PTC Werkstap Beheer B.V., a leading developer of SaaS applications Werkstap and 2BImproved, specialised in supporting the Dutch social development sector. This acquisition expands Lyvia Group's portfolio into the social development sector, providing digital solutions that help individuals with disabilities enter and remain in the workforce. The acquisition of Werkstap will add around 830 k EUR in EBITA to the group<sup>1</sup>, with an LTM EBITA of slightly over 1 million EUR as of June 2025.

Werkstap provides software solutions for government, social development companies, education, and entrepreneurs. Their offerings enable municipalities to reintegrate vulnerable individuals, support companies in employing those distanced from the labour market, develop skills in schoolchildren, and help businesses achieve corporate social responsibility goals through Social Return initiatives.

*"Joining Lyvia Group opens exciting possibilities for growth and collaboration. By combining our expertise with Lyvia's diverse portfolio, we can further develop solutions that help more people thrive in the workforce and support inclusive social development initiatives"* says Gert Meima, Co-Founder and Managing Director of Werkstap.

*"We are thrilled to welcome Werkstap into the Lyvia Group family. Their dedication to empowering individuals and organisations aligns perfectly with our mission to deliver innovative solutions that make a tangible difference. Together, we will expand our impact in the social development sector and enhance opportunities for creating equity within the job market in the Netherlands,"* says Hossein Araghi, Managing Director for Lyvia Group in Benelux.

The acquisition of Werkstap reinforces Lyvia Group's presence in the Benelux market and highlights the group's commitment to leveraging technology for social impact. This partnership ensures continued innovation in workforce inclusion, empowering individuals and organisations to achieve their full potential.

## ABOUT WERKSTAP:

Founded in 1999 and headquartered in Ravenstein, Netherlands, Werkstap develops SaaS applications Werkstap and 2BImproved, delivering solutions that foster workforce inclusion and sustainable employment opportunities for people facing barriers to employment
