

Genexis expands its Wi-Fi 7 portfolio with Aura E755 – DECT and Home CX750 mesh-extender

Genexis, the European leader of innovative broadband solutions for in the home, expands its Connected Home portfolio with two powerful additions: the Aura E755 Wi-Fi 7 gateway with embedded DECT base station, and the Home CX750 — a next-generation mesh extender in the much appreciated ‘cube’ form-factor.

“The Aura Wi-Fi 7 product family is not just about connectivity; it reflects our commitment to innovation, sustainability, and delivering exceptional in-home experience. With our award-winning IOWRT software now including integrated DECT, the Aura E755 stands out in both performance and user value,” says Conny Franzén, Connected Home Business Unit Head at Genexis.

“With the Home CX750, we’re responding to a strong demand in the market — a high-performance mesh extender that users are proud to display, not hide away. It strikes the ideal balance between design and performance, crafted for those who value aesthetics, reliable coverage, and robust connectivity,” says Trond Hovind, Director Business Development Connected Home at Genexis.

Key features of the Aura E755:

- **Wi-Fi 7 gateway** – Delivers ultra-fast, low latency connectivity with interference-free multi-band operation, optimizing streaming, gaming, and remote work.
- **Embedded DECT CAT-iq base-station:** Built-in support for up to five DECT handsets, enabling full home voice services with CAT-iq 2.1 functionality.
- **Simple and intuitive:** Easy setup and control via the EasyWiFi App and USP-based WebGUI.
- **Sustainable, elegant Nordic design:** Customizable aesthetic design that fits seamlessly into any home. Made with our commitment to circular product design, with 90% recycled plastics and 100% recyclable packaging.

Key features of the Home CX750:

- **Wi-Fi 7 extender:** - Delivers ultra-fast, low latency coverage supporting seamless roaming across the whole home via Wi-Fi EasyMesh™.
- **Sustainable, elegant Nordic design:** Compact cube with soft-touch fabric cover. Available in multiple colors to blend into modern interiors. Made with our commitment to circular product design.
- **Effortless deployment:** Plug-and-play setup ensures simple installation and excellent placement flexibility.

With the introduction of the Aura E755 and Home CX750, Genexis continues to push the boundaries of home connectivity. These new products represent the next generation of broadband — built not only for speed and performance, but also for simplicity, sustainability, and seamless integration into everyday life.

About Genexis

Genexis brings the world to everyone's home. We enable people to participate in the digital society and access essential services and applications. Fast and user-friendly digital connectivity improves people's quality of life and positively impacts their world. By creating innovative, more sustainable, and intuitive products, we make it easy for homes to connect to the world.

Genexis is a leading European vendor of innovative broadband solutions for the home. Our customers are network operators, internet service providers, and fiber network installers. Genexis' portfolio consists of ONTs, residential gateways, extenders, open-source-based operating systems, and communication management software. We are a European company headquarters in Stockholm (SE) and Eindhoven (NL). Genexis has a Sustainability Linked Bond listed on Nasdaq Stockholm and has earned the EcoVadis Gold medal for sustainability.
