

## One ONT for any OLT and the best Wi-Fi for your network: Genexis at Connected Britain

Genexis, the European leader in innovative broadband solutions, is exhibiting at Connected Britain 2025, held 24–25 September in London. At booth 51, Genexis will demonstrate how its ONTs deliver seamless interoperability across leading OLT platforms, empowering operators with unmatched deployment flexibility and eliminating vendor lock-in. The latest Wi-Fi 7 innovations will be unveiled, designed to elevate in-home connectivity.

### One ONT for any OLT interoperability demo

At the heart of Genexis' showcase is a live demonstration of TrueTalk™ enabling ONT-OLT interoperability featuring Genexis FiberTwist ONTs alongside Ciena and Harmonic OLTs. The demo highlights how Genexis ONTs seamlessly connect across leading vendor platforms, enabling:

- One ONT for every deployment: CATV, Voice, GPON, XGS-PON - all supported by Genexis' wide range of ONTs
- Simplified rollout: Genexis ONTs are not only optimized with TrueTalk™ auto-sensing compatibility, but also designed for plug-and-play DIY installation, reducing operational complexity and accelerating fiber deployment
- Freedom from vendor lock-in: Operators can optimize investments and stock, especially during mergers and acquisitions, with independent ONTs that seamlessly work across all leading vendor OLT platforms

This interoperability demo is more than a technical achievement - it's a shared value between Genexis, Ciena and Harmonic, reflecting their collective commitment to open standards and customer-centric innovation.

### The best Wi-Fi 7 for your network in a complete portfolio

Genexis unveils its latest Wi-Fi 7 solutions, designed to deliver exceptional performance, low latency, and seamless home coverage. The expanded portfolio includes:

- Aura gateways: Continuously evolving with new models, built for ISPs who prioritize advanced features like direct fiber uplink, seamless integration, differentiating consumer applications and high-end performance

- Elite gateways: A new addition to the portfolio designed to deliver maximum value for ISPs, combining essential features with cost-efficiency for large-scale deployments
- Home extenders: Compact and powerful, these extenders ensure consistent Wi-Fi coverage throughout the home, housed in the iconic Genexis “cube” design

These solutions are built to provide the best Wi-Fi for your network, combining performance, design, and ease of use.

### Interactive CloudSight demo

Visitors to the Genexis booth will experience a new interactive demo of CloudSight, Genexis’ connectivity management platform. This hands-on demo enables visitors to experience how operators and ISPs can monitor, configure, and optimize home connectivity with ease to drive customer experience. CloudSight supports XMPP, TR-069 and TR-369 (USP) to provision advanced device management and configuration, streamlining network operations for all CPEs using standard interfaces.

### Visit Genexis at Connected Britain 2025 – booth 51

Gain hands-on experience with an interoperable ONT-OLT demo, discover the latest innovations in Wi-Fi 7 products, and explore connectivity management with CloudSight. Join us in shaping the future of open & flexible networks, enhancing customer experience.

### About Genexis

Genexis brings the world to everyone’s home. We enable people to participate in the digital society and access essential services and applications. Fast and user-friendly digital connectivity improves people's quality of life and positively impacts their world. By creating innovative, more sustainable, and intuitive products, we make it easy for homes to connect to the world.

Genexis is a leading European vendor of innovative broadband solutions for the home. Our customers are network operators, internet service providers, and fiber network installers. Genexis’ portfolio consists of ONTs, residential gateways, extenders, open-source-based operating systems, and communication management software. We are a European company headquartered in Stockholm (SE) and Eindhoven (NL). Genexis has a Sustainability Linked Bond listed on Nasdaq Stockholm and has earned the EcoVadis Gold medal for sustainability.
