Genexis Announces NuFibre as First UK Customer for Elite HX30 Gateway and Home CX30 Extender

Genexis, the European leader in innovative broadband solutions, is pleased to welcome NuFibre, a brand-new Internet Service Provider (ISP) retail brand, as a customer. NuFibre is the first UK ISP to deploy the recently launched Genexis Elite HX30 residential gateway with the Home CX30 extender.

NuFibre operates on networks with a reach of over 18 million+ homes nationwide, offering NuPackages with speeds of up to 2.5Gbps. Known for its commitment to delivering multi-gig broadband, now enhanced by Genexis' residential gateway and extender solutions to get the best out of every broadband line.

"We're excited to partner with Genexis and the innovative solutions they bring to the market. The HX30 and CX30 routers are not only well-designed and high performing, but also offer exceptional flexibility from core infrastructure to end-user delivery. This combination delivers more than just a leading product; it reflects a shared commitment to continuous innovation and development. As our teams work together seamlessly, it truly feels like Genexis is an extension of the NuFibre team." says Martin Gardner, NuFibre CEO.

The Elite HX30 is built to offer ISPs the right mix of performance and maximum value for large-scale rollouts. It delivers fast, reliable Wi-Fi and supports mesh networking, making it easy to expand coverage across the home. The Home CX30 is a compact and powerful Wi-Fi extender, designed to work seamlessly with Genexis gateways like the Elite HX30. With its iconic cube design, it helps ensure strong, consistent Wi-Fi in every corner of the home. Both are equipped with essential features such as real-time remote management through TR-369/USP, enabling seamless, ultra-fast internet experiences for NuFibre customers.

"We're excited to support NuFibre in delivering next-generation Wi-Fi to millions of homes. Their decision to onboard our Wi-Fi solutions reflects a shared commitment to innovation and quality. This milestone is the result of a great collaboration between NuFibre, Genexis

and the Kenton Group.” says Conny Franzen, Connected Home Business Unit Head at Genexis.
