

# Nimlas Sweden acquires JS Service i Norr

**Nimlas continues its growth journey in northern Sweden through the acquisition of J Svensson Service i Norr AB. The acquisition is in line with the 5-50-500 growth strategy, which targets SEK 5 billion in revenue, 50 new companies, and SEK 500 million in profit.**

Founded in 2014 by Jonas Svensson, JS Service i Norr has grown steadily over the years. The company specializes in the design and installation of large-scale fibre optic and data network solutions, AV systems, conference technology, and fibre network infrastructure. In addition, the company provides service and maintenance. Its customer base includes industrial companies, public and commercial property owners, hotels and conference facilities, regional authorities, housing associations, and data centres.

JS Service i Norr generates annual revenue of approximately SEK 15 million (2025) and has 10 employees operating throughout the counties of Norrbotten and Västerbotten. The company has achieved impressive growth in recent years and has built a strong reputation for its specialist expertise and high-quality delivery.

*"We have grown significantly over the past few years, and as a result, the demands on our business have increased. To continue our development, we see major advantages in becoming part of a larger organisation. We will now benefit from support in areas such as administration and occupational health and safety. It feels reassuring to join a group with extensive experience in developing and supporting growing entrepreneurial businesses,"* says Jonas Svensson, Founder and Project Manager.

Charlott Svensson, Operational Manager and incoming Managing Director (MD), adds:

*"It was important for us to find an organisation whose values reflect our own and where both we and our employees would feel at home. Nimlas Sweden stands for many of the same principles that have shaped the way we run our business, making this a natural next step. We look forward to continuing our growth while preserving the qualities that have made us successful."*

*"Through the acquisition of JS Service, we strengthen our position in northern Sweden and within the industrial segment. The company's service offering complements our existing disciplines and broadens our capabilities. I would like to extend a warm welcome to Jonas, Charlott, and their colleagues to the Group,"* says Anders Buskas, Regional Manager, HS Mid, Nimlas Sweden.

The transaction is subject to approval by the Swedish Inspectorate of Strategic Products (ISP), which is expected in September.

**Nimlas in brief:**

Nimlas is on track to become the most successful company in the technical installations industry, uniting close to 150 companies and 5,000 professionals across Sweden, Norway and Finland. Beyond the Nordics, Nimlas is expanding into Europe, starting with Poland and Germany. The group provides a complete range of technical installation services, including electricity, plumbing, HVAC, automation, fire safety, and other related services. Nimlas has a pro forma turnover of SEK 10 billion and is owned by KLAR Partners.
