Aquaporin further postpones final results of rights issue due to current investor dialogues and uncertainty of completion

Kongens Lyngby, Denmark, January 26, 2026 – **Aquaporin A/S** (“Aquaporin” or the “Company”), an innovative water technology company dedicated to rethinking water filtration with biotechnology, today announces a further delay of the timeline communicated in relation to the ongoing rights issue (**the “Rights Issue” or the “Offering”**) whereby final results of the Offering will to be communicated by January 31, 2026, at the latest with no further postponements.

Further to its announcement on Friday January 23, 2026 on the preliminary results of the Offering, the Company is currently in dialogues with several investors and partners assessing its options to clarify if a possibility remains for the Company to complete the Offering or otherwise secure the necessary funding **to cover the Company's near-term** capital requirements.

The Company will use the coming days to further explore such options and will communicate final results of the Offering, or alternatively withdrawal of the Offering, by January 31, 2026, at the latest with no further postponements. There is no certainty that the current dialogues will result in any investment commitments and the Company will be able to complete the Offering.

If the Offering is not completed or other financing secured in the imminent future with proceeds or funding **sufficient to cover the Company's near-term** capital requirements, the Company expects to enter into insolvency proceedings.

Terms and conditions including in case of withdrawal of the Offering

The full terms and conditions of the Offering are set out in the Information Document published by the Company on December 19, 2025 in connection with the Offering. The Information Document is, subject to

certain restrictions, together with a company presentation available at the Company's website: <https://investors.aquaporin.com/investors/right-issue-2025/default.aspx>

Should the Offering be withdrawn, any exercise of pre-emptive rights that has already taken place will be cancelled automatically when the Offering is withdrawn. The subscription amount for the new shares will be refunded (less any transaction costs) to the last registered owner of the new shares. All pre-emptive rights will lapse, and no new shares will be issued. Trades of pre-emptive rights executed during the rights trading period will, however, not be affected. Consequently, shareholders and investors who have acquired pre-emptive rights will incur a loss corresponding to the purchase price of the pre-emptive rights and any transaction costs. Shareholders and investors who have subscribed for new shares will receive a refund of the subscription amount for the new shares (less any transaction costs) through their account-holding institution. The Company is not liable for any losses that investors may suffer as a result of withdrawal of the Offering including but not limited to, any transaction costs or lost interest. Reference is also made to Information Document published on December 19, 2025 and section 8.3 "*Withdrawal or suspension of the Offering*".
