Iceland's Highlands—vast, untouched, and open for just a short season—are among the most remote landscapes in the country. Arctic Adventures' Summer 2025 lineup of guided treks and hikes takes travelers deep into this wilderness, from legendary multi-day routes to shorter, scenic trails.

Here, you'll find world-class trails like Laugavegur and Fimmvörðuháls, consistently ranked among the best hikes on Earth. Shaped by fire and ice, the paths follow jagged mountains, steaming hot springs, and ancient lava fields. In such rugged wilderness, expert guidance is a must.

Arctic Adventures' tours take travelers beyond the limits of regular access, making Iceland's wildest places accessible to anyone ready to explore.
