

## Allgon announces the appointment of Monika Franke-Templar as Chief Human Resources Officer

Gothenburg, March 18<sup>th</sup>, 2026

Allgon announced today the appointment of Monika Franke-Templar as the Chief Human Resources Officer of the Allgon Group. She will assume the role on March 23, joining the executive management team and reporting to the CEO.

Monika joins Allgon with more than 25 years of international HR leadership experience from global, technology-intensive environments. She most recently served in senior HR executive roles at Polestar and Volvo Cars, where she held a broad range of global positions supporting both engineering-dense organizations and commercial business areas.

Monika has a strong track record in driving large-scale transformation, including organizational redesign, capability building, leadership development, and cultural evolution across fast-moving and innovation-driven industries. Her work has consistently focused on enabling high-performance teams and strengthening leadership capabilities that support long-term business growth.

“I am honored by the trust placed in me and look forward to becoming part of Allgon,” says Monika Franke-Templar. “Wireless communication, AI, and robotics are reshaping industrial productivity, and Allgon has both the heritage and ambition to lead this development. With a solid team in place, my focus will be on developing our leadership capabilities and our culture and supporting our global organization as we take the next step together.”

Linda Nyquist-Evenrud, CEO of Allgon, also commented “We are delighted to have Monika on board. Her experience across complex engineering and commercial environments, combined with her strong ability to build engagement and alignment during periods of change, will be highly valuable as we continue to scale the company and strengthen our position in the global market.”

### *Information for the editors, not for publication*

Allgon is a world-leading player in industrial radio control. We develop, manufacture, and deliver solutions in industrial radio control to customers around the world.

At Allgon, we have a long history of working with wireless communication. In recent years, we have focused our activities on the market for industrial radio control, where we are among the five largest players globally. Industrial radio control is used within a wide range of application areas in industrial production as well as in the construction and transport sectors. Our solutions often have a central and business-critical role in our customers' production and the safety of their employees. Industrial radio control helps to streamline the customers' business.

The majority of Allgon's turnover is in radio remote control systems through our brands Tele Radio, Sistematica, and Åkerströms.
