

Allgon appoints Hanna Landell CEO of Åkerströms

Gothenburg, March 19th, 2026

Allgon Group has appointed Hanna Landell as the new CEO and Head of Sales of Åkerströms, effective 23 March 2026. She succeeds Hans Åkerblom, who will leave the company on 31 March 2026 to pursue new opportunities.

The appointment marks the next step in Åkerströms' continued development as part of Allgon Group, with a clear focus on long-term growth, customer value, and closer collaboration across the group.

"We are very pleased to welcome Hanna as the new CEO of Åkerströms," says Linda Nyquist-Evenrud, Group CEO of Allgon Group. "She has the right experience, leadership, and commercial mindset to guide the company into its next phase. We see great potential in continuing to strengthen Åkerströms' market position, customer offering, and collaboration within Allgon."

Hanna Landell brings broad leadership experience from industrial and manufacturing companies operating in both Nordic and international markets. Her background spans several core business areas, including sales, production, supply chain, and business development, and she has successfully led organisations through periods of expansion and transformation.

"I am pleased and honoured to be entrusted with leading Åkerströms," says Hanna Landell. "It will be exciting to join an industry that is new to me, even though the customers, markets, and business are in many ways familiar. I see strong potential to further develop the offering, strengthen customer value, and set a clear direction together with the organisation and the group."

Allgon also extends its sincere thanks to Hans Åkerblom for his contribution to Åkerströms and its progress during his tenure.

"Hans has done highly appreciated work and has been an important part of Åkerströms' development," says Linda Nyquist-Evenrud. "We would like to thank him for his valuable contributions and wish him every success in his future endeavours."

"I would like to thank all colleagues and partners for a truly rewarding time," says Hans Åkerblom. "Åkerströms has a strong offering and a fantastic team, and I am very proud of what we have accomplished together. I look forward to following the company's continued development under Hanna's leadership."

Information for the editors, not for publication

Allgon is a world-leading player in industrial radio control. We develop, manufacture, and deliver solutions in industrial radio control to customers around the world.

At Allgon, we have a long history of working with wireless communication. In recent years, we have focused our activities on the market for industrial radio control, where we are among the five largest players globally. Industrial radio control is used within a wide range of application areas in industrial production as well as in the construction and transport sectors. Our solutions often have a central and business-critical role in our customers' production and the safety of their employees. Industrial radio control helps to streamline the customers' business.

The majority of Allgon's turnover is in radio remote control systems through our brands Tele Radio, Sistematica, and Åkerströms.
