

Allgon Welcomes Maria Lexe as its New Chief Technology & Product Officer

Gothenburg, June 1st, 2026

Demand for safe, connected, and digitally integrated industrial solutions is growing fast. Allgon's ambition is to lead that shift, to be at the forefront of the Remote Tech market and to hold the number one position in its segment globally. Thus, Allgon as a strategic step towards that objective has appointed Maria Lexe as Chief Technology & Product Officer is a strategic step towards that.

A new combined leadership role

Allgon has brought together the Chief Technology Officer and Chief Product Officer responsibilities into a single, combined Chief Technology & Product Officer (CTPO) role. The decision reflects Allgon's belief that unified leadership across Technology and Product will bring added strength and clarity in delivering the company's product roadmap — with sharp end-to-end accountability from customer insight through to execution and delivery.

Maria Lexe appointed as Chief Technology & Product Officer

Maria brings over 20 years of senior leadership experience across digital transformation, technology strategy, software delivery, and customer-centric product development. She joins Allgon most recently from Polestar, where she served as Chief Digital Officer with global responsibility for digital strategy, IT, software, data, and digital product creation. Prior to that, she held senior leadership roles across the automotive and retail industries, leading large-scale digital and technology transformation programs. Maria will be based in Gothenburg and joins Allgon on 8 June 2026.

“Allgon is delighted to welcome Maria to the leadership team. Her deep experience across technology and product leadership, combined with her track record of delivering large-scale digital transformation, makes her the ideal leader to take on this expanded and newly combined role. At the same time, sincere gratitude goes to Claes for everything he has contributed to Allgon. He has been a valuable member of the leadership team, and Allgon wishes him all the best in the next chapter.”

Said Linda Nyquist-Evenrud, Chief Executive Officer of Allgon AB.

A farewell to Claes Seth

Allgon extends its heartfelt thanks to Claes Seth for his dedication and the meaningful contributions he made during his time as Chief Technology Officer. Allgon is grateful for everything he gave to the team and wishes him every success in his future endeavors.

Information for the editors, not for publication

Allgon is a world-leading player in industrial radio control. We develop, manufacture, and deliver solutions in industrial radio control to customers around the world.

At Allgon, we have a long history of working with wireless communication. In recent years, we have focused our activities on the market for industrial radio control, where we are among the five largest players globally. Industrial radio control is used within a wide range of application areas in industrial production as well as in the construction and transport sectors. Our solutions often have a central and business-critical role in our customers' production and the safety of their employees. Industrial radio control helps to streamline the customers' business.

The majority of Allgon's turnover is in radio remote control systems through our brands Tele Radio, Sistematica, and Åkerströms.
